Finin, Steven Willmott, 2006-03-30 There is a growing interest in the use of ontologies for multi agent system applications On the one hand the agent paradigm is successfully employed in those applications where autonomous loosely coupled heterogeneous and distributed systems need to interoperate in order to achieve a common goal On the other hand ontologies have established themselves as a powerful tool to enable knowledge sharing and a growing number of applications have benefited from the use of ontologies as a means to achieve semantic interoperability among heterogeneous distributed systems In principle ontologies and agents are a match made in heaven that has failed to happen What makes a simple piece of software an agent is its ability to communicate in a social environment to make autonomous decisions and to be proactive on behalf of its user Communication ultimately depends on understanding the goals preferences and constraints posed by the user Autonomy is the ability to perform a task with little or no user intervention while proactiveness involves acting autonomously with no need for user prompting Communication but also autonomy and proactiveness depend on knowledge The ability to communicate depends on understanding the syntax terms and structure and the semantics of a language Ontologies provide the terms

used to describe a domain and the semantics associated with them In addition ontologies are often complemented by some logical rules that constrain the meaning assigned to the terms These constraints are represented by inference rules that can be used by agents to perform the reasoning on which autonomy and proactiveness are based      **Snow Country** ,1990-11 In the 87 issues of Snow Country published between 1988 and 1999 the reader can find the defining coverage of mountain resorts ski technique and equipment racing cross country touring and the growing sport of snowboarding during a period of radical change The award winning magazine of mountain sports and living tracks the environmental impact of ski area development and people moving to the mountains to work and live      **Pacific Ports Manual** ,1919      **Plastic Optical Fiber Design Manual - Handbook and Buyers Guide** ,1993      *Cars Consumer Guide 1988* Consumer Guide,Consumer Guide Editors,1988 The experts at Consumer Guide help consumers get the facts they need with the guide that profiles and reviews over 100 cars and compact vans for the new model year Exclusive discount price lists and low prices help consumers negotiate with salesmen      The Mines Handbook Walter Garfield Neale,Lenox Hawes Rand,Edward Barney Sturgis,1920
