Mauritius Road Traffic Act 2011:

The Use of Foreign Precedents by Constitutional Judges Tania Groppi, Marie-Claire Ponthoreau, 2013-03-28 In 2007 the International Association of Constitutional Law established an Interest Group on The Use of Foreign Precedents by Constitutional Judges to conduct a survey of the use of foreign precedents by Supreme and Constitutional Courts in deciding constitutional cases Its purpose was to determine through empirical analysis employing both quantitative and qualitative indicators the extent to which foreign case law is cited The survey aimed to test the reliability of studies describing and reporting instances of transjudicial communication between Courts The research also provides useful insights into the extent to which a progressive constitutional convergence may be taking place between common law and civil law traditions The present work includes studies by scholars from African American Asian European Latin American and Oceania countries representing jurisdictions belonging to both common law and civil law traditions and countries employing both centralised and decentralised systems of judicial review The results published here for the first time give us the best evidence yet of the existence and limits of a transnational constitutional communication between courts Global Status Report on Road Safety 2015 World Health Organization, 2015-12-17 The Global status report on road safety 2015 reflecting information from 180 countries indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year with the highest road traffic fatality rates in low income countries In the last three years 17 countries have aligned at least one of their laws with best practice on seat belts drink driving speed motorcycle helmets or child restraints While there has been progress towards improving road safety legislation and in making vehicles safer the report shows that the pace of change is too slow Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development halving the global number of deaths and injuries from road traffic crashes by 2020 Made possible through funding from Bloomberg Philanthropies this report is the third in the series and provides a snapshot of the road safety situation globally highlighting the gaps and the measures needed to best drive progress Publisher's description Global Status Report on Road Safety 2013 World Health Organization. Violence and Injury Prevention, World Health Organization, 2013 This report provides legislation data last updated in 2011 and fatality data updated for 2010 *European Yearbook of International Economic Law 2011* Christoph Herrmann, Jörg Philipp Terhechte, 2011-01-12 Part one of Vol 2 2011 of the European Yearbook of International Economic Law addresses two major topics of current academic debate and public interest firstly it focuses on the State and the Global Economy secondly on Climate Change and International Economic Law Part two contains treatises of recent regional integration developments taking place in the major regions of the world Part three covers the legal and political developments in the major international organizations and fora dealing with international economic policy making Part four contains book reviews of recent works in the field of International Economic Law

Prosecuting Maritime Piracy Michael P. Scharf, Michael A. Newton, Milena Sterio, 2015-06-09 This book addresses

maritime piracy by focusing on the unique and fascinating issues arising in the course of domestic piracy prosecutions from the pursuit and apprehension of pirates to their trial and imprisonment It examines novel matters not addressed in other published works such as the challenges in preserving and presenting evidence in piracy trials the rights of pirate defendants and contending with alleged pirates who are juveniles A more thorough understanding of modern piracy trials and the precedent they have established is critical to scholars practitioners and the broader community interested in counter piracy efforts as these prosecutions are likely to be the primary judicial mechanism to contend with pirate activity going forward

Global Status Report on Road Safety 2018 World Health Organization, 2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1 35 million Road traffic injuries are now the leading killer of people aged 5 29 years The burden is disproportionately borne by pedestrians cyclists and motorcyclists in particular those living in developing countries The report suggests that the price paid for mobility is too high especially because proven measures exist Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives

Implementing the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) through national fisheries legal frameworks

Nakamura, J.N., Kuemlangan, B., 2023-10-24 In recent years an increasing number of commercially exploited and managed aquatic species including sharks and rays have been listed in the Appendices to the Convention on International Trade in Endangered Species of Wild Fauna and Flora CITES The listing of some species in CITES Appendix II has necessitated attention from the fisheries sector of States on how listing would impact on the management of the relevant fisheries This sourcebook and the research process involved in its development highlighted the opportunity to implement CITES through national fisheries legal frameworks Indeed in certain cases doing so can prove to be vital in giving practical effect to CITES while simultaneously enhancing fisheries management regimes and ensuring that all activities along the fisheries value chain especially the international trade in CITES listed aquatic species are legal traceable and sustainable The study recognizes that communities operating within the CITES regime and in the fisheries sectors have their own particular areas of work However they should cooperate and coordinate their work where they share the common high level objectives of ensuring responsible legal and sustainable utilization of resources including species biodiversity and ecosystems and implementing the relevant Sustainable Development Goals This sourcebook was first published in 2020 designated as a super year for nature and biodiversity The second edition of this sourcebook was developed to take into account and reflect the outcomes of the 19th meeting of the Conference of the Parties to CITES in 2022 The sourcebook is a timely and useful contribution to fisheries management as it seeks to provide support in i raising awareness of CITES ii enhancing comprehension of the CITES regime and its relationship with the fisheries sector and iii where a deliberate decision is made by a country to implement CITES through its national fisheries legal frameworks providing guidance on what to do and how to do it
