George F Will Book:

The Leveling Wind George F. Will, 1994 For twenty years Will's politically conservative columns have appeared in major newspapers all over the country This collection of his columns drawn from the past four years presents his opinions on subjects much beloved to the political Right from the bete noir of political correctness to such apparently vapid concepts as self esteem Annotation copyright by Book News Inc Portland OR *The Pursuit of Happiness, and Other Sobering Thoughts* George F. Will, 1978 Columns originally published in Newsweek and the Washington Post which deal with human nature and contemporary American life and politics Restoration George F. Will, 2010-05-11 From Pulitzer Prize winning columnist George Will whose thinking is stimulating erudite and makes for great reading The Boston Globe comes a biting humorous and perceptive The New York Times Book Review argument for the necessity of term limits in Congress The world's oldest democracy ours has an old tradition of skepticism about government However the degree of dismay about government today is perhaps unprecedented in our history Americans are particularly convinced that Congress has become irresponsible either unwilling or incapable of addressing the nation's problems while it spends its time and our money on extending its members careers Many Americans have come to believe fundamental reform is needed specifically limits on the number of terms legislators can serve In *Restoration* George Will makes a compelling case drawn from our history and his close observance of Congress that term limits are now necessary to revive the traditional values of classical republican government to achieve the Founders goal of deliberative democracy and to restore Congress to competence and its rightful dignity as the First Branch of government At stake Will says is the vitality of America's great promise self government under representative institutions At issue is the meaning of representation The morality of representative government Will argues does not merely permit it requires representatives to exercise independent judgment rather than merely execute instructions given by constituents However careerism which is a consequence of the professionalization of politics has made legislators servile and has made the national legislature incapable of rational responsible behavior Term limits would restore the constitutional space intended by the Founders the healthy distance between the electors and the elected that is necessary for genuine deliberation about the public interest Blending the political philosophy of the Founders with alarming facts about the behavior of legislative careerists *Restoration* demonstrates how term limits by altering the motives of legislators can narrow the gap between the theory and the practice of American democracy **Focus On: 100 Most Popular American**
