

At $k = -1$, $x = 4(-1)^2 - 1 = 4 - 1 = 3$, is not divisible by 8.

At $k = 0$, $x = 4(0)^2 - 1 = 0 - 1 = -1$, is not divisible by 8

Let us assume that $n = \text{odd}$:

So, when $n = \text{odd}$ i.e., $n = 2k + 1$, where k is an integer,

We get,

$$\Rightarrow x = 2k + 1$$

$$\Rightarrow x = (2k+1)^2 - 1$$

$$\Rightarrow x = 4k^2 + 4k + 1 - 1$$

$$\Rightarrow x = 4k^2 + 4k$$

$$\Rightarrow x = 4k(k+1)$$

At $k = -1$, $x = 4(-1)(-1+1) = 0$ which is divisible by 8.

At $k = 0$, $x = 4(0)(0+1) = 0$ which is divisible by 8.

At $k = 1$, $x = 4(1)(1+1) = 8$ which is divisible by 8.

From the above two observation, we can conclude that, if n is odd, $n^2 - 1$ is divisible by 8.

Hence, option (C) is the correct answer.

4. If the HCF of 65 and 117 is expressible in the form $65m - 117$, then the value of m is

(A) 4 (B) 2

(C) 1 (D) 3

Solution:

(B) 2

Explanation:

Let us find the HCF of 65 and 117,

$$117 = 1 \times 65 + 52$$

$$65 = 1 \times 52 + 13$$

$$52 = 4 \times 13 + 0$$

Hence, we get the HCF of 65 and 117 = 13.

According to the question,

$$65m - 117 = 13$$

$$65m = 117 + 13 = 130$$

$$\therefore m = 130/65 = 2$$

Hence, option (B) is the correct answer.

5. The largest number which divides 70 and 125, leaving remainders 5 and 8, respectively, is

(A) 13 (B) 65

(C) 875 (D) 1750

Solution:

(A) 13

Explanation:

According to the question,

We have to find the largest number which divides 70 and 125, leaving remainders 5 and 8.

Duncan,Richard J. Murnane,2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and

supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation **The Complete Book of Colleges, 2013 Edition** Princeton

2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and

generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

Learning and Teaching Early Math Douglas H. Clements, Julie Sarama, 2020-12-29 The third edition of this significant and groundbreaking book summarizes current research into how young children learn mathematics and how best to develop foundational knowledge to realize more effective teaching Using straightforward practical language early math experts Douglas Clements and Julie Sarama show how learning trajectories help teachers understand children's level of mathematical understanding and lead to better teaching By focusing on the inherent delight and curiosity behind young children's mathematical reasoning learning trajectories ultimately make teaching more joyous helping teachers understand the varying levels of knowledge exhibited by individual students it allows them to better meet the learning needs of all children This thoroughly revised and contemporary third edition of *Learning and Teaching Early Math* remains the definitive research based resource to help teachers understand the learning trajectories of early mathematics and become confident credible professionals The new edition draws on numerous new research studies offers expanded international examples and includes updated illustrations throughout This new edition is closely linked with *Learning and Teaching with Learning Trajectories LT 2* an open access web based tool for early childhood educators to learn about how children think and learn about mathematics Head to LearningTrajectories.org for ongoing updates interactive games and practical tools that support classroom learning
