## List Four Factors of Production. Why Are They Important?

Four factors of production are labor, capital, land, and entrepreneurship. The importance of them is founded on their contribution to the production process, economic growth, and competitiveness. Economics is an essential power that has been directing people throughout history. Humanity faced a plethora of hardships, crises, and obstacles that various economic theories and approaches aimed to solve. The issue of production has always been a crucial part of the economy as it is a vital source of necessary goods and services that people need to consume. However, the scholar dimension has...
