**Halles Comet** Ben Mayer,1985-08-28     A Compendious System of Natural Philosophy John Rowning,1753     *The Planetary and Stellar Worlds* Ormsby MacKnight Mitchel,1859     Catalog of Unconfirmed Comets - Volume 1 Gary W. Kronk, Maik Meyer,2023-05-09 This catalog is the first in depth investigation of comets that were reported since the 17th century but not confirmed and subsequently lost Volume I of this two volume work covers objects observed between 1600 and 1899 a period that was dominated by visual observations and was experiencing a rapid evolution in science The book uniquely combines the history and culture of comet hunting and discovery with modern tools of orbital mechanics to present a wholesome catalog of unconfirmed and suspected comets Each case includes a presentation of the observations a discussion about the observer when possible consideration of the historic context and a conclusion as to the nature of the object In most cases the book presents material from original sources including some never before published that were acquired from observatories libraries and historical societies around the world Although some of these unconfirmed comets turned out to be misidentifications of planets or star clusters fabrications or poor observations of comets that were already being observed the Authors did identify many objects that were likely real comets In some cases the Authors were even able to derive orbits for the first time These observations may be valuable in the future as they could prove to be observations of periodic comets still to be discovered     *Natural Encounters* Bruce M. Beehler,2019-05-21 A twelve month excursion through nature s seasons as recounted by a lifetime naturalist In this personal encyclopedia of nature s seasons lifetime naturalist Bruce Beehler reflects on his three decades of encountering nature in Washington D C The author takes the reader on a year long journey through the seasons as he describes the wildlife seen and special natural places savored in his travels up and down the Potomac River and other localities in the eastern and central United States Some of these experiences are as familiar as observing ducks on the National Mall in Washington D C or as unexpected as collecting fifty million year old fossils on a Potomac beach Beyond our nation s capital Beehler describes trips to nature s most beautiful green spaces up and down the East Coast that he says should be on every nature lover s bucket list Combining diary entries riffs on natural subjects field trips photographs and beautiful half tone wash drawings this book shows how many outdoor adventures are out there waiting in one s own backyard The author inspires the reader to embrace nature to achieve a more peaceful existence

E. Griffiths,1788 A monthly book announcement and review journal Considered to be the first periodical in England to offer reviews In each issue the longer reviews are in the front section followed by short reviews of lesser works It featured the novelist and poet Oliver Goldsmith as an early contributor Griffiths himself and likely his wife Isabella Griffiths contributed review articles to the periodical Later contributors included Dr Charles Burney John Cleland Theophilus Cibber James Grainger Anna Letitia Barbauld Elizabeth Moody and Tobias Smollet *Famine and Disease in Ireland* E Margaret Crawford,2020-06-01 This collection contains Five volumes of reprints of contemporary works relating to the Great Famine including writings on the medical conditions in Ireland at the time gathered from the Dublin Journal of Medical Science and similar publications *The Hidden Origins of the German Enlightenment* Martin Mulsow,2023-07-13 The early German Enlightenment is seen as a reform movement that broke free from traditional ties without falling into anti Christian and extremist positions on the basis of secular natural law an anti metaphysical epistemology and new social ethics But how did the works which were radical and critical of religion during this period come about And how do they relate to the dominant moderate Enlightenment Martin Mulsow offers fresh and surprising answers to these questions by reconstructing the emergence and dissemination of some of the radical writings created between 1680 and 1720 The Hidden Origins of the German Enlightenment explores the little known freethinkers persecuted authors and secretly circulating manuscripts of the era applying an interdisciplinary perspective to the German Enlightenment By engaging with these cross regional clandestine texts a dense and highly original picture emerges of the German early Enlightenment with its strong links with the experience of the rest of Europe **Authors, Authority and Interpreters in the Ancient Novel** Gareth L.
