

Your kit will include the specified 2 or 3 pedals depending on MT or AT version.

The plates included are to secure the new pedals to old hardware - depending on application you may have some left over. This applies to the hardware as well.

Please Note The screws supplied have variations depending on the application. If you need to drill holes & screw your accelerator pedal over your old one, you should opt for the flathead screws. For securing the pedal without drilling you should choose the hex screws.
