Lab Manual for Psychological Research Dawn M. McBride, J. Cooper Cutting, 2018-12-27 Dawn M McBride and J Cooper Cutting's Lab Manual for Psychological Research Fourth Edition provides students with opportunities to practice and apply the knowledge and skills learned in their research methods course. Developed for use in a lab course or as take home review, the manual contains four types of practice exercises that connect to specific concepts: exercises for developing a research project, APA style exercises that become progressively more complex, and instruction for how to avoid plagiarism. This comprehensive and practical manual can be used with Dawn M McBride's best selling *The Process of Research in Psychology* Fourth Edition or as a supplement to other core texts. [Lab Manual for Psychological Research and Statistical Analysis](#) Dawn M. McBride, J. Cooper Cutting, 2019-07-17 This lab manual serves as an additional resource for students and instructors in a research methods, statistics, or combined course where classroom and/or laboratory exercises are conducted.

A Guide to College Success for Post-traditional Students Henry S. Merrill, 2018-08-01 The purpose of this book is to assist post traditional students to achieve success in the Occupational Workforce and Leadership Studies OWLS Department and develop their individualized pathway to earn the interdisciplinary Bachelor of Applied Arts and Sciences BAAS degree at Texas State University. Applied baccalaureate degrees incorporate higher order thinking skills and advanced technical knowledge and skills with applied coursework. BAAS students may also earn college level credits through prior learning assessment (PLA) evaluating and credentialing knowledge and skills gained outside the classroom. The organization and content of this book provides adult degree program faculty and leaders an example of how one required textbook develops and supports the outcomes and activities in all the core courses of an interdisciplinary degree program designed for post traditional adult learners. The majority of the students earning the BAAS degree are post traditional students. They are often defined with some or all of these characteristics: over age 25 years old when starting or returning to college, may not have a traditional high school diploma, enroll part time, work full time, are financially independent, have dependents other than a spouse, and may be a single parent. These students juggle multiple roles and responsibilities in the family, workplace, and community. Post traditional students bring rich work life experiences, may be experiencing personal and/or professional transitions, have clear career goals, and often finance their education. They seek flexible programs including online education, PLA, and accelerated course formats. Thus, post traditional students want active, collaborative, and interactive learning relevant to career and other roles and goals.
