Myers, 2017-04-18 How have the Jews survived For millennia they have defied odds by overcoming the travails of exile persecution and recurring plans for their annihilation Many have attempted to explain this singular success as a result of divine intervention In this engaging book David N Myers charts the long journey of the Jews through history At the same time it points to two unlikely and decidedly this worldly factors to explain the survival of the Jews antisemitism and assimilation Usually regarded as grave dangers these two factors have continually interacted with one other to enable the persistence of the Jews At every turn in their history not just in the modern age Jews have adapted to new environments cultures languages and social norms These bountiful encounters with host societies have exercised the cultural

muscle of the Jews preventing the atrophy that would have occurred if they had not interacted so extensively with the non Jewish world It is through these encounters indeed through a process of assimilation that Jews came to develop distinct local customs speak many different languages and cultivate diverse musical culinary and intellectual traditions Left unchecked the Jews well honed ability to absorb from surrounding cultures might have led to their disappearance And yet the route toward full and unbridled assimilation was checked by the nearly constant presence of hatred toward the Jew Anti Jewish expression and actions have regularly accompanied Jews throughout history Part of the ironic success of antisemitism is its malleability its talent in assuming new forms and portraying the Jew in diverse and often contradictory images for example at once the arch capitalist and revolutionary Communist Antisemitism not only served to blunt further assimilation but in a paradoxical twist affirmed the Jew s sense of difference from the host society And thus together assimilation and antisemitism at least up to a certain limit contribute to the survival of the Jews as a highly adaptable and yet distinct group
