South Africa and United Nations Peacekeeping Offensive Operations Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

Reflections on the Complexities of the Covid-19 Pandemic Shadrack B. Ramokgadi, Mbekezeli C. Mkhize, 2022-12-31 This book offers an original and timely snapshot of contemporary lines of argument from various authors in the Global South on the Covid 19 pandemic as a complex emergency at the height of the pandemic At the time of writing there were various levels of uncertainties from different countries citizens the public and private sectors industries and economies who were in disarray The book traces the origins of the Covid 19 pandemic in the province of Wuhan in China the challenges and the responses from a multiplicity of countries

particularly from the Global South Of particular importance the book notes that vaccine uncertainty limiting the spread of the virus and loss of life and employment were some of the major challenges that these governments and citizens were confronted with Also the sizes of various economies lead to various challenges that the abovementioned governments shouldered The contributors shed light on various aspects related to the Covid 19 pandemic from various countries in the Global South and include but were not limited to securitised lockdowns the use of militaries and complete closures of national and sometimes fragile economies as well as overburdened health systems These are just some dire consequences of Covid 19 on the public and private sector industries and economy The book emphasises that despite myriad challenges reported there are various lessons that can be learnt in terms of how the countries responded to the pandemic and in terms of how future pandemics can be handled Finally this is an interesting piece of work wherein contributors as a collective seek to shed light with regards to the unique perspectives from the Global South and at the same time give some guidance related to their specific areas of focus
