AERO TRADER & CHOPPER SHOPPER, NOVEMBER 1997 Causey Enterprises, LLC, **The Seven Year-Old Pilot**
Capt. Steven Archille, 2012-03-23 Flying has been my dream since before I can remember literally My Aunt Odette tells me that when I was three years old she took me with her to the Port au Prince International Airport to pick someone up and when I saw an airliner up close for the first time I excitedly yelled out I want to drive that I don't recall that event but it serves as evidence that my fascination with flying began at a remarkably young age My first memory of wanting to fly came a few years later at the age of seven I was on my very first flight from Port au Prince to New York City where I was going to start a new life in a new country I remember looking at all the people boarding the airplane and wondering how that big silver bird was going to get us into the air that silver bird was an American Airlines Boeing 727 To this day the whole experience is vivid in my mind being greeted with a smile by the captain at the aircraft entry door the funny feeling in my stomach as the plane accelerated down the runway leaping into the air and my utter disbelief that we didn't drop out of the sky I was mesmerized by it all and by the time the plane came to a stop at our gate my dream had been born I wanted to become an airline pilot I have been blessed to be living that dream since 1999 It's a dream from which I hope never to awaken This is the story of the lifelong journey I have taken in realizing that dream I invite you to come along with me as we go from my birth in Haiti to the present day as I live my dream every day You will come with me as I move to America at the age of seven a country I knew nothing about and whose language I didn't speak a land that would truly prove to be the land of opportunity You will feel my sense of wonder and bewilderment growing up in New York City trying to understand my new world You will face my struggles to fit in with the kids in the housing project where my family lived for a decade as Mom and Dad saved money to buy a house You will meet my parents who encouraged my dream of flying and my fifth grade teacher who helped me to see that it was possible not only to dream it but also to achieve it It's a story of potential fulfilled and my family's sacrifices to get me through college and flight school You will fly with me from my first lesson to my first airline job as a copilot to the day I earned my four stripes and first heard someone call me Captain You will sit with me in the captain's seat as I fly an airline jet over Haiti for the first time looking down from thirty eight thousand feet onto the land of my birth where my dream had been born You will soar with me over the majestic Amazon jungle in Brazil over the desert flanked Nile River in Egypt and the sparkling Mediterranean Sea You will fly with me through New York City blizzards Indian monsoons and Arabian sandstorms You will travel with me on adventures to Europe South America the Middle East South Asia the Caribbean and other parts of the world I used to dream of going to as a child places that have affected me profoundly and where I left a little part of myself I have seen all these things through the eyes of the seven year old boy from Haiti that I was and in many ways still am the little boy who had a sense of just how incredible the world and life are who dreamt of a life of worldwide adventure and was blessed to have his dream come true That is the reason for the title of this book The Seven

Year Old Pilot because even after years of flying around the world in many ways I still feel like that little boy and I always try to approach my travels and my life with his sense of gratitude amazement and awe I truly believe that every one of us has life experiences and lessons worth sharing that can inspire enlighten teach and benefit others because we have all lived *Aircraft Accident Report*, 197? *Runway Overrun During Landing, Shuttle America, Inc., Doing Business as Delta Connection Flight 6448, Embraer ERJ-170, N862RW, Cleveland, Ohio, February 18, 2007*, 2008 **The Naval Institute Guide to Combat Fleets of the World, 1990/91** Bernard Pr  zelin, 1990 **Readers' Guide to Periodical Literature** Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1904 An author subject index to selected general interest periodicals of reference value in libraries [Cincinnati/Northern Kentucky International Airport, Section 303c Evaluation](#), 2001 **Buying the Big Jets** Paul Clark, 2017-07-14 Selecting the right aircraft for an airline operation is a vastly complex process involving a multitude of skills and considerable knowledge of the business Buying the Big Jets has been published since 2001 to provide expert guidance to all those involved in aircraft selection strategies This third edition brings the picture fully up to date representing the latest developments in aircraft products and best practice in airline fleet planning techniques It features a new section that addresses the passenger experience and for the first time includes regional jet manufacturers who are now extending their product families into the 100 plus seating category Overall the third edition looks at a broader selection of analytical approaches than previously and considers how fleet planning for cost leader airlines differs from that of network carriers Buying the Big Jets is an industry specific example of strategic planning and is therefore a vital text for students engaged in graduate or post graduate studies either in aeronautics or business administration The book is essential reading for airline planners with fleet planning responsibility consultancy groups analysts studying aircraft performance and economics airline operational personnel students of air transport leasing companies aircraft value appraisers and all who manage commercial aircraft acquisition programmes and provide strategic advice to decision makers It is also a valuable tool for the banking community where insights into aircraft acquisition decisions are vital **Journal of the House of Representatives of the United States** United States. other hand supplying such information which may possibly be used against them in subsequent criminal prosecution The situation is compounded by inconsistent approaches between different legal systems aviation professionals may find themselves faced with criminal charges in one country but not in another and they may also be unsure as to whether statements given during the technical investigation could be used against them in a court of law Aviation safety is to a large extent built upon the trust placed by pilots ATCOs and other aviation professionals in the process of accident investigation This book examines the growing trend to criminalize these same people following an accident investigation and considers the implications this has for aviation safety *Jane's All the World's Aircraft* ,2007 *Flying Magazine* ,2002-08
