Notes:

- The electrical safety aspects of the emergency lighting installation must also be certified in accordance with BS 7671 Requirements for Electrical Installations by issuing an Electrical Installation Certificate or, where appropriate, a Minor Electrical Installation Works Certificate.
- Where this certificate relates to a major alteration or addition, it should be accompanied by an Emergency Lighting Periodic Inspection and Testing Certificate for the entire emergency lighting installation.
- This can be in any of the following formats (in all cases appropriate de-rating factors must be used), and identified to meet worst case requirements:
  - Authenticated spacing data such as ICEE, ADST registered cables;
  - calculations as detailed in CHSE / SLL Guide 0512;
  - appropriate computer print of results.
