Essential Writings in Violence Risk Assessment and Management Christopher D. Webster, Hy Bloom, 2007. With *Essential Writings in Violence Risk Assessment and Management*, mental health and legal practitioners have quick access to the most important peer-reviewed writings in the field. The 31 journal articles and book chapters in this collection provide a complete foundational curriculum on the subject. Topics include the historical shift from dangerousness to violence risk assessment; the emergence of actuarial violence prediction; clinical prediction and assessment; the actuarial versus clinical controversy; decision-making; treatments; security and program planning. Covering a field that crosses civil, forensic, and correctional boundaries, this book is a valuable resource for clinicians, lawyers, judges, law enforcement officials, health and correctional administrators, journalists, and anyone working in the forensic system. It is also of interest to anyone intrigued by how the forensic system assesses and manages people deemed to be violent and how decision makers manage the often precarious balance between protecting the public and according the accused the greatest degree of freedom possible. The book's six main sections are preceded by introductions written by the editors that succinctly encapsulate the main arguments discussed by its contributors. Taken together, these introductions provide a concise summary of a complex topic.

The Ideology of Failed States Susan L. Woodward, 2017-04-03. What do we mean when we use the term failed states? This book presents the origins of the term, how it shaped the conceptual framework for international development and security in the post-Cold War era, and why. The book also questions how specific international interventions on both aid and security fronts greatly varied by actor based on these outsiders' perceptions of state failure create conditions that fit their characterizations of failed states. Susan L. Woodward offers details of international interventions in peacebuilding, statebuilding, development assistance, and armed conflict by all these specific actors. The book analyzes the failure to re-order the international system after 1991, that the conceptual debate in the early 1990s sought to the serious detriment of the countries labelled failed or fragile, and the concept's packaging of the entire third world despite its growing diversity since the mid-1980s as one.
