Haussmann. [1923]** Friedrich Wilhelm Nietzsche, 1911 *The Complete Works of Friedrich Nietzsche* Friedrich Wilhelm Nietzsche, 1909 *The Birth of Tragedy: (translated by William A. Haussmann)* Friedrich Wilhelm Nietzsche, 2018-06 German philosopher Friedrich Nietzsche was one the most controversial figures of the 19th century His evocative writings on religion morality culture philosophy and science were often polemic attacks against the established views of his time First published in 1872 *The Birth of Tragedy* is the author s classic work on dramatic theory It was the author s first published work in which he exhibited his enthusiasm for the dramatic works of Aeschylus and Sophocles In the dramatic works of classical antiquity

Nietzsche found a life affirming philosophy arising from what is otherwise a tragic and meaningless world Introduced here is the intellectual dichotomy between the Dionysian and the Apollonian dramatic traditions The sons of Zeus Apollo and Dionysus respectively represented the traits of reason and emotion Nietzsche argues that the conflict between these two characteristics is central to the human condition and the brilliance with which the Ancient Greeks dealt with this conflict was the principal quality contributing to their excellence Harshly criticized in its time Nietzsche would later recognize in a prefatory essay the work as a product of youthful naiveté when he reissued it in 1886 This edition is printed on premium acid free paper and follows the translation of William A Haussmann **Complete works, vol.17** Friedrich Nietzsche, Oscar (editor) Levy, 1911 **Thus Spoke Zarathustra** Friedrich Nietzsche, 2026-08-11 Thus Spoke Zarathustra stands alone among Nietzsche's published works as a poetic and narrative rendering of his most sophisticated ideas through the medium of Zarathustra's uniquely prophetic voice It is also the first place where Nietzsche proposes his theory of will to power and it is the only place in his published works where he elaborates his concept of the superhuman and his doctrine of eternal recurrence Nietzsche himself regarded this book as his most important philosophical contribution because it proposes solutions to the problems he poses but does not resolve in his other works for example his cure for the human disposition to vengefulness and his creation of new values as the antidote to nihilism This translation precisely and consistently renders each element so that readers may experience Nietzsche's phrasing wit and wordplay in equivalent English The extensive editorial notes in this edition include numerous cross references to earlier drafts and variants that are found in his notebooks and published in Volumes 14 and 15 of The Complete Works thus allowing the reader to view the evolution of Nietzsche's thought from first drafts to their final published versions The Translators Afterword includes a discussion of translation issues unique to Zarathustra and a glossary of key terms as well as a discussion of Nietzsche's views concerning this book's contributions to the development of the German language
