Effectiveness of teachers' guides in the Global South Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10. This report presents the results of RTI International Education's study on teachers' guides across 13 countries and 19 projects. Using quantitative and qualitative methods, we examine how teachers' guides across the projects differ and find substantial variation in the design and structure.

of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide *Resources in Education* ,1998 **ERIC Educational Documents Index, 1966-69: Minor descriptors and author index** ,1970 **English for Success** Ingrid Barnsley,2012 **The John Catt Guide to International Schools 2010/11** Wendy Bosberry-Scott,2010-10 Containing up to date information on the full range of international schools including single sex co educational day and boarding schools this guide will assist parents and children in choosing the right international school for them *Fourth International Handbook of Globalisation, Education and Policy Research* Joseph Zajda,2024-12-04 This handbook provides a global synthesis of on going research in education and policy change during the last decade It examines discourses of globalisation from the perspectives of the global North and global South Major theories of globalisation and education policy reforms employed in the handbook are classified into two broad categories structuralist and post structuralist The handbook while examining the impact of global trends in different societies cultures and educational settings attempts to synthesise different meta theories of globalisation and their impact on societies and educational systems It discusses the continued interaction of global national and local forces and influences especially the importance of standards and quality driven education reforms the need to overcome inequality of access to quality schools and aims at providing quality education for all students In addition the impact of neo liberal ideology on education is examined in terms of its impact on ongoing standards driven education reforms globally The handbook analyses neo liberalism in education and its focus on increasing global competitiveness accountability efficiency quality standards driven policy reforms and educational stratification The impact of globalisation on education policy and reforms is a strategically significant issue for us all The unifying conceptual framework used in the handbook to critique strategic significance of globalisation is grounded in discourse CDA and critical theory The work offers the latest findings concerning major issues in education and policy directions such as global social and economic
