advancements *The Sold Nation* Daniel B. Solomon, 2021-06-16 *The Sold Nation* is a fictional story based on the ongoing reality in the contemporary Ethiopia. The novel begins with the students at Addis Ababa university at their Social Science Compass and ends in the great hall of the national palace of the country. *The Sold Nation* exhibits the trying struggle of the students of the said university and some of their professors to help the country get rid of the so-called identity politics which has messed up the texture of the country as a united sovereign nation. The characters along with their respective settings are well constructed. They represent the various colors and odors of the nation and the aspiration of its citizens for the period the identity-based politics have been ruling the nation. The various conflicts between and among the characters are very well constructed. The plot is so strong and tense. It is very involving. It could simply capture the attention of the readers and drive them all the way to the end at one sitting. The language is attractive and enchanting to the mind. It is full of figurative speeches, well-written expressions. This novel is a must to read if you would like to apprehend the suffrage that the said politics has wedged on the citizens of Ethiopia. It is a worth reading.

Faith-based Organisations in Ethiopia Aklilu Dalelo, Till Stellmacher, 2012 As in other African countries, the engagement of faith-based organizations (FBOs) in the development sector in Ethiopia is tremendous and manifold. FBOs are, however, still insufficiently integrated in the development discourse and often operate under the radar of international and multilateral donors. This can be, to a large extent, reasoned by the fact that very little empirical research has hitherto been undertaken to assess the impact of FBO activities in Ethiopia. Upon this background, this study contributes to the debate among practitioners and researchers on the actual and potential contribution of FBOs to development in Ethiopia. This is exemplified by the work of the Ethiopian Kale Heywet Church (EKHC) in rural areas of southern Ethiopia in the thematic fields of schooling, ecological balance, and food security. Cross-sectional and case study designs form the principal approaches used in the study. Both quantitative and qualitative methods were used.
