Poetry of Thomas Gray Estelle Haan, 2024-11-11 In the first full scale edition of Thomas Gray's Latin poetry the Latin text and facing English translation are complemented by a detailed introduction and comprehensive commentary that situate Gray's Latin verse in relation to his vernacular poetry epistolary correspondence and especially his appropriation of classical and Neo Latin literature This book also traces hitherto unlocated manuscripts of several of his Latin poems and includes an editio princeps of recently discovered Latin verses pertaining to his Neapolitan sojourn Gray's Latin poetry presents an illuminating portrait of the artist as a young man mapping his growth and development from his Etonian days to his undergraduate years at Cambridge University to his continental journey and his return to England Impressively eclectic in its scope and tone it ranges from experimental renderings of English Greek and Italian verse to more strikingly original pieces including poetic reinterpretations of Alexander Pope's *Essay on Man* and John Locke's *An Essay Concerning Humane Understanding* Gray looks back to a classical past offering imaginative readings of Lucretius Virgil and Horace At the same time his Latin verse is firmly rooted in a postclassical world At its heart is the theme of presences whether sacred imagined absent or remembered conveyed with a linguistic ingenuity that facilitates the encoding of homoeroticism in a Neo Latin language of sensibility
