

SEXUALITES ET SEXUATION

Par Agnès Farjon

Article paru dans le Canard Biodynamique n°18 de décembre 2011

Platon raconte ce mythe dans "Le Banquet", par la bouche d'Aristophane :

"Qu'était la nature humaine, et que lui est-il arrivé ? Notre nature était autrefois différente : il y avait trois catégories d'êtres humains, le mâle, la femelle, et l'androgyne. De plus, la forme humaine était celle d'une sphère avec quatre mains, quatre jambes et deux visages, une tête unique et quatre oreilles, deux sexes, etc. Les humains se déplaçaient en avant ou en arrière, et, pour courir, ils faisaient des révolutions sur leurs huit membres. Le mâle était un enfant du soleil, la femelle de la terre, et l'androgyne de la lune. Leur force et leur orgueil étaient immenses, et ils s'en prirent aux dieux. Alors Zeus trouva un moyen de les affaiblir sans les tuer : il les coupa en deux. [...] Ainsi, alors que les humains surgissaient auparavant de la terre, un engendrement mutuel fut possible par l'accouplement d'un homme et d'une femme. Alors, les hommes qui aiment les femmes et les femmes qui aiment les hommes (issus du partage d'un androgyne) permettront la perpétuité de la race; et les hommes qui aiment les hommes (issus du partage d'un mâle), plutôt que d'accoucher de la vie, accoucheront d'un esprit. [...] C'est l'amour de deux êtres qui tentent de n'en faire qu'un pour guérir la nature humaine : nous sommes la moitié d'un être humain, et nous cherchons sans cesse notre moitié, de l'autre sexe ou du même sexe que nous. [...] Le nom d'amour est donc donné à ce souhait de retrouver notre totalité, et Éros est notre guide pour découvrir les bien-aimés qui nous conviennent véritablement."(1)

Re situons ce texte dans son contexte : en Grèce à l'époque, la culture veut que l'amour soit réservé aux hommes entre eux, l'hétérosexualité étant réservée à la procréation.

Cette histoire montre plusieurs choses : d'abord que la norme change selon l'époque et le lieu et que l'hétérosexualité n'a pas toujours été la référence systématique ; ensuite que l'impulsion naturelle est de chercher son autre moitié ; enfin que cette moitié peut être *naturellement* du même sexe ou de sexe opposé.

La nature

Le principal argument de ceux qui considèrent l'homosexualité comme une déviance, est de dire qu'elle n'existe pas dans la nature, qu'elle est contre nature. Or c'est faux. Je ne m'attarderai pas sur ce thème, de nombreux livres (2) en témoignent : l'homosexualité est naturelle, un point c'est tout.

Des études scientifiques ont également montré (3) que l'être humain, de par sa biologie, est bien plus proche des espèces polygames que monogames, avec donc des changements naturels de partenaires. A noter que polygame se dit autant pour les femelles d'une espèce que pour les mâles. Donc, si l'on s'en tient à la nature, ce qui est naturel c'est d'avoir plusieurs partenaires, successifs ou en même temps, de même sexe ou de sexe opposé.

Alors, où est la déviance ? Eh bien, si l'on s'en tient à l'observation de la nature, il apparaît qu'être monogame (un seul partenaire pour la vie) est une déviance, et être hétérosexuel exclusif (ou homosexuel exclusif) est aussi une déviance.

Pression de conformité

Vous l'avez compris, la question de l'homosexualité (et autres comportements sexuels ou sexués inhabituels) est indissociable de la question culturelle : nous, en occident, vivons dans une société qui a posé, du fait de son héritage des siècles passés, que la norme était l'hétérosexualité et la monogamie. Et donc, même si nous n'avons pas conscience de l'intensité
