building of the modern world *Current and Emerging Trends in Cyber Operations* Frederic Lemieux, 2015-08-27 This book explores current and emerging trends in policy strategy and practice related to cyber operations conducted by states and non state actors The book examines in depth the nature and dynamics of conflicts in the cyberspace the geopolitics of cyber conflicts defence strategy and practice cyber intelligence and information security **The Oceanic Feeling** Isabella Lövin, Isabella L vin s The Oceanic Feeling On the Need for a New Narrative is a unique document of a life spent on the front lines of the climate battle and at the negotiating tables where the future of our planet is decided The Swedish investigative journalist who became a member of the European Parliament and then served for seven years in government five of those as Deputy Prime Minister and Climate Minister takes us on a journey behind the scenes of climate and global ocean policy making Some may remember the viral picture of her signing the Swedish climate law in 2017 As Donald Trump just had signed a regressive executive order limiting women s sexual and reproductive rights surrounded by only men she by contrast signed progressive climate legislation surrounded by women Deeply concerned about the shrinking confidence in democracy L vin offers a pedagogic and hopeful account of the fact that change can happen if there is a will and a vision But she also recognizes the main reason why humanity is not acting on the many global crises a narrative of egoism and individualism A truer and much more positive story can be found when we recognize The Oceanic Feeling a deep connection with nature people and the miraculous web of life on the planet putting empathy responsibility and awe at the center of what it is to be human How L vin asks us can we convert the world to this new healthier narrative **Social Work and Integration in Immigrant Communities** Kathleen Valtonen, 2016-03-03 There has been a marked rise in global migration with many former countries of emigration becoming immigration destinations As a result of this social workers increasingly encounter immigrant clients and are called upon to work in their communities At the same time in the field of research theories conceptual frames perspectives and discourse have materialized and evolved to make sense of contemporary events Social work professionals researchers and students must therefore need to be apprised of current thinking research and discourse in the field of integration Valtonen familiarizes the reader with the variation in national policies institutional arrangements and service responses which all provide rich contrasts and insights into a breadth of policy possibilities Since macro level developments in migration carry direct implications for social work as a discipline and a profession with a central stake and role in immigrant wellbeing this book provides salient information to help with visioning in the profession defining appropriate and concerted responses and building robust standing in the field as well as promoting the linking of disciplinary and multidisciplinary research with practice EU Law for UK Lawyers Aidan O'Neill, 2011-07-27 This is the second edition of this wide ranging survey of EU law The new edition has been significantly enlarged Unlike many other EU law books it takes full account not only of the Lisbon Treaty changes to the EU treaties but also of the fact that the EU Charter of Fundamental Rights now has the same legal value as the EU Treaties It therefore not only covers the relevant case law of the

Court of Justice of the European Union but also ties that case law into the decisions of the European Court of Human Rights because it is clear that EU law can only now properly be understood and applied against this background of European fundamental rights jurisprudence The book sets out very clearly the broad shape of the European Union's legal systems while also giving the reader a good feel for the policy motivations in the Court of Justice of the European Union and the scope of EU legislative activity Written in a lively and accessible style it is an ideal guide for practitioners whether those coming to the subject for the first time or those already with a background in EU law Among the additions and changes in this expanded edition the book includes new chapters on the EU and fundamental rights on commercial agency on criminal law and on private international law in the EU It also contains a full treatment of EU equality law The first edition EC Law for UK Lawyers by Aidan O'Neill and Jason Coppel ISBN 9780406024596 was published by Butterworths in 1994

Situated Practices of Strategic Planning Louis Albrechts, Alessandro Balducci, Jean Hillier, 2016-07-22 All over the world societies are facing a number of major problems New developments challenges and opportunities cause these issues and yet cases tell us that traditional spatial planning responses and tools are often insufficient to tackle these problems and challenges Situated Practices of Strategic Planning draws together examples from across the globe from France to Australia from Nigeria to the United States as it observes international comparisons of the strategic planning process Many approaches and policies used today fail to capture the dynamics of urban regional transformation and are more concerned with maintaining an existing social order than challenging and transforming it Stewarded by a team of highly regarded and experienced researchers this book gives a synthetic view of the process of change and frames future directions of development It is unique for its combination of analysis of international case studies and reflection on critical nodes and features in strategic planning This volume will be of interest to students who study regional planning academics professional planners and policy makers

Credulity Emily Ogden, 2018-03-30 From the 1830s to the Civil War Americans could be found putting each other into trances for fun and profit in parlors on stage and in medical consulting rooms They were performing mesmerism Surprisingly central to literature and culture of the period mesmerism embraced a variety of phenomena including mind control spirit travel and clairvoyance Although it had been debunked by Benjamin Franklin in late eighteenth century France the practice nonetheless enjoyed a decades long resurgence in the United States Emily Ogden here offers the first comprehensive account of those boom years Credulity tells the fascinating story of mesmerism's spread from the plantations of the French Antilles to the textile factory cities of 1830s New England As it proliferated along the Eastern seaboard this occult movement attracted attention from Ralph Waldo Emerson's circle and ignited the nineteenth century equivalent of flame wars in the major newspapers But mesmerism was not simply the last gasp of magic in modern times Far from being magicians themselves mesmerists claimed to provide the first rational means of manipulating the credulous human tendencies that had underwritten past superstitions Now rather than propping up the powers of oracles and false gods these

tendencies served modern ends such as labor supervision education and mediated communication Neither an atavistic throwback nor a radical alternative mesmerism was part and parcel of the modern Credulity offers us a new way of understanding the place of enchantment in secularizing America

Transformative Change and Real Utopias in Early Childhood Education Peter Moss, 2014-04-24 Early childhood education and care is a major policy issue for national governments and international organisations This book contests two stories both infused by neoliberal thinking that dominate early childhood policy making today the story of quality and high returns and the story of markets stories that promise high returns on investment if only the right technologies are applied to children and the perfection of a system based on competition and individual choice But there are alternative stories and this book tells one a story of democracy experimentation and potentiality in which early childhood centres are public spaces and public resources places where democracy and experimentation are fundamental values community workshops for realising the potentiality of citizens This story calls for transformative change but offers a real utopia both viable and achievable The book discusses some of the conditions needed for the story s enactment and shows what it means in practice in a chapter about project work contributed by a Swedish preschool teacher Critical but hopeful this book is an important contribution to resisting the dictatorship of no alternative and renewing a democratic politics of early childhood education It is essential reading for students and teachers researchers and other academics and for all other concerned citizens

Warriors and other Men Lisbeth Skogstrand, 2016-07-31 This book questions whether androcentric archaeology has taught us anything about prehistoric men and their masculinities

The segregated city: A Nordic overview Moa Tunström, Shinan Wang, 2019-03-28 Issues related to segregation and integration are major responsibilities and challenges for cities and a segregated urban environment can be understood as a symptom of wider social injustices In this brief overview of current research on residential segregation the focus is on structural reasons to segregation This means that it is planning policies and tendencies in socio economic development that are discussed rather than specific social integration measures and

projects But there is an obvious arena where these two approaches to segregation meet and that is in the local community and its spaces for social interaction This is important to keep in mind that the integrated city is both a result of strategies and initiatives on a micro scale in the neighbourhood and between individuals and initiatives and development on a macro scale This report is part of a theme on segregation within the Nordic collaboration programme for effective integration and inclusion of refugees and immigrants in the Nordic countries Read more at www.integrationnorden.org The Nordic Bible Marianne Bjelland Kartzow, Kasper Bro Larsen, Outi Lehtipuu, 2023-09-05 The volume offers a new critical reflection on the use of the Bible in contemporary cultural and political debates in the Nordic countries In Nordic Lutheran societies the Bible has been perceived as a basis of religion and social cohesion Whereas such religious and confessional factors are well researched vis vis the historical genesis of the Nordic welfare states the focus here is on public use of the Bible in debates of today **Domestic Violence, Family Law and School** M. Eriksson, L. Bruno, E. Näsman, 2013-09-24 Domestic Violence Family Law and School discusses the ways in which family law disputes in cases of domestic violence can impact on children's lives at pre school and school In drawing on new research the book establishes a new framework for understanding how welfare systems tackle domestic violence Tribal Studies in India Maguni Charan Behera, 2019-11-09 This book provides comprehensive information on enlargement of methodological and empirical choices in a multidisciplinary perspective by breaking down the monopoly of possessing tribal studies in the confinement of conventional disciplinary boundaries Focusing on anyone of the core themes of history archaeology or anthropology the chapters are suggestive of grand theories of tribal interaction over time and space within a frame of composite understanding of human civilization With distinct cross disciplinary analytical frames the chapters maximize reader insights into the emerging trend of perspective shifts in tribal studies thus mapping multi dimensional growth of knowledge in the field and providing a road map of empirical and theoretical understanding of tribal issues in contemporary academics This book will be useful for researchers and scholars of anthropology ethnohistory ethnoarchaeology and of allied subjects like sociology social work geography who are interested in tribal studies Finally the book can also prove useful to policy makers to better understand the historical context of tribal societies for whom new policies are being created and implemented
