

Project Overview and Anticipated Project Requirements

Project Overview:

KBR is establishing a National Quick Response Team for our current Federal Emergency Management Agency (FEMA) and U.S. Army Corps of Engineers (USACE) work, and for anticipated future contracts. Upon completion of evaluation, certain subcontractors may be invited to establish a Master Services Agreement (MSA) with pre-established lease rates and terms and conditions.

The Continental US will be broken up into five regions as indicated in the map below. Services will be required in each State within each region.

Anticipated Project Requirements:

Establish services listed below within 72 hours for initial set-up and respond within 24 hours for incremental services. This is a CONTINGENCY PROJECT and it should be stressed that lead times will be short with critical requirements due to the nature of emergency responses. Subcontractors must be flexible and able to handle multiple, shifting priorities in an emergency environment. Supply lines needed must be short but not necessarily pre-positioned.
