Tween Pop Tyler Bickford, 2020-04-03 In the early years of the twenty first century the US music industry created a new market for tweens selling music that was cooler than Barney but that still felt safe for children In *Tween Pop* Tyler Bickford traces the dramatic rise of the tween music industry showing how it marshaled childishness as a key element in legitimizing children s participation in public culture The industry played on long standing gendered and racialized constructions of childhood as feminine and white both central markers of innocence and childishness In addition to *Kidz Bop* *High School Musical* and the Disney Channel s music programs Bickford examines Taylor Swift in relation to girlhood and whiteness Justin Bieber s childish immaturity and Miley Cyrus Hannah Montana and postfeminist discourses of work life balance In outlining how tween pop imagined and positioned childhood as both intimate and public as well as a cultural identity to be marketed to Bickford demonstrates the importance of children s music to core questions of identity politics consumer culture and the public sphere
