Garcia,Arthur W. Blume,2022-06-17 Inequities still exist in today s society and this book advances awareness an equitable mindset and transformative change toward the goal of eliminating inequities and promoting inclusiveness and social justice Racialized inequity is injustice or unfairness and exists when prejudice or discrimination based on any aspect of difference precludes access of certain groups to the resources and benefits of society This volume takes a new look at the psychology of inequity today Have we progressed or regressed since the height of the civil rights movement of the 1960s Through an examination of the motivations and beliefs behind inequities and injustices this text aims to answer this question and any others that a scholar or general reader interested in social inequities and multiculturalism may have Chapters address the motives that sustain inequity and reflect on the beliefs and behaviors linked to implicit responses to threats of change and loss of privilege posed by the inclusion of others **The Methodology of Political Economy** J.I. Bakker,2015-12-24 The importance of the global rural urban matrix is often overlooked due to urban

normativity But sometimes agrarian populism and a pastoral rural imaginary result in the equally fallacy of a rural normativity as in Jeffersonian nostalgia for a lost way of life that never existed The nature of rurality in North America is important to study but as Alessandro Bonanno makes clear we cannot limit ourselves to the study of one or two nation states We must take a global perspective when it comes to the bio physical environment and the nature of the world capitalist system This collection takes such a perspective The editor frames the contributions with a Meta Paradigm called the New Political Economy Perspective NPEP and explains the roots of that approach in Classical Political Economy and the Canadian Political Economy Tradition of Harold Adams Innis There are chapters by an anthropologist a geographer two generalist sociologists and a group of rural sociologists There is also a chapter on psychiatry and mental health and another chapter which discusses pedagogy The use of an inter disciplinary framework to study global issues makes this a stimulating book which provides a window on issues that are often overlooked
