Cronin, Michael A. Genovese, 2015-11-17 Some leaders fundamentally alter the status quo whilst others guide quietly Most leadership books emphasise specific rules but Tom Cronin and Michael Genovese see leadership as filled with paradox Leadership Matters offers a different view of leadership one that builds community and responds creatively to new situations Cronin and Genovese argue that leadership is about more than just charisma and set leaders on to a different path to unleash the power of paradox *The Original Thoroughbred Times Racing Almanac, 2005 Edition* Thoroughbred Times, Thoroughbred Times Staff, 2004-07 This book is a fan s treasure trove of racing information featuring hundreds of pages of information on racetracks trainers owners and a directory on the sport s organizations **The Modern Woodman**, 1926 *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954* United States. Environmental Data Service, **Who's who in American Law**, 2005 Rand McNally Road Atlas of the United States, Canada and Mexico Rand McNally and Company, 2003 **Who Was Who in America; With Notables 1942-2006** Marquis Who's Who, 2006 **Resisting Rebellion** Anthony James Joes, 2006-08-18 In Resisting Rebellion Anthony James Joes explores insurgencies ranging across five continents and spanning more than two centuries Analyzing examples from North and South America Europe Africa and the Middle East he identifies recurrent patterns and offers useful lessons for future policymakers Insurgencies arise from many sources of discontent including foreign occupation fraudulent elections and religious persecution but they also stem from ethnic hostilities the aspirations of would be elites and traditions of political violence Because insurgency is as much a political phenomenon as a military one effective counterinsurgency requires a thorough understanding of the insurgents motives and sources of support Clear political aims must guide military action if a counterinsurgency is to be successful and prepare a lasting reconciliation within a deeply fragmented society The most successful counterinsurgency campaign

undertaken by the United States was the one against Philippine insurgents following the Spanish American War But even more instructive than successful counterinsurgencies are the persistent patterns of errors revealed by Joes s comparative study Instances include the indiscriminate destructiveness displayed by the Japanese in China and the Soviets in Afghanistan and the torture of suspected Muslim terrorists by members of the French Army in Algeria Joes s comprehensive twofold approach to counterinsurgency is easily applied to the U S The first element developing the strategic basis for victory emphasizes creating a peaceful path to the redress of legitimate grievances committing sufficient troops to the counterinsurgent operation and isolating the conflict area from outside aid The second element aims at marginalizing the insurgents and includes fair conduct toward civilians and prisoners systematic intelligence gathering depriving insurgents of weapons and food separating insurgent leaders from their followers and offering amnesty to all but the most incorrigible Providing valuable insights into a world of conflict Resisting Rebellion is a thorough and readable exploration of successes and failures in counterinsurgency s long history and a strategy for the future
