**Intermediate Accounting** Donald E. Kieso, Jerry J. Weygandt, Terry D. Warfield, 2025      Global Entrepreneurship Nir Kshetri, 2014-04-16 Selected as an Outstanding Academic Title by Choice Magazine in 2014 Nir Kshetri's *Global Entrepreneurship Environment and Strategy* provides a window into the economic political cultural geographical and technological environments that affect entrepreneurs as they exploit opportunities and create value in economies across the world The book begins with a discussion of the theories concepts indicators and measurements that impact entrepreneurship differently in different regions From there it offers helpful insights into global variations in entrepreneurial ecosystems and finance Kshetri methodically examines entrepreneurship patterns in diverse economies through the lenses of economic system political system culture and religion and geography both by country and continent *Global Entrepreneurship* offers case studies at the end of each chapter illustrating concepts learned as well as three detailed cases in an appendix for broader reflection The book also includes online data resources and international business planning support making it a valuable resource for students in entrepreneurship and international business classes      International and US IPO Planning Frederick D. Lipman, 2008-12-22 Praise for International and U S IPO Planning Perhaps the greatest value of Frederick Lipman's new book on initial public offerings derives as its title indicates from the emphasis that it places on planning Lipman makes abundantly clear that an IPO is not something to be rushed into by every fledgling firm as was typical during the dot com boom of the late 1990s Indeed his extensive treatment of the many aspects of preparing a company for an IPO particularly the non financial aspects helps the reader to focus on the most important question of all Is an IPO appropriate for a given company Somewhat uniquely Lipman then asks the further question of whether an international IPO might be appropriate for that company even if a domestic one were not By doing so he has made a real contribution to this literature Kenneth C. Froot, Clinical Professor of Finance, NYU Stern School of Business We are operating in a global environment in nearly every aspect of business and structuring planning for an IPO is no different The recent changes in regulations for U S listed companies have raised the cost of access of U S listed IPO capital making foreign exchanges much more attractive Fred Lipman has created a wonderful guide for managers to seriously access this option for their business I also hope his

book is a wake up call to U S regulators on their impact on the competitiveness of U S securities markets Bob Hellman Managing Partner CEO American Infrastructure MLP Funds This book will be of immense value to the companies planning an IPO I am particularly struck by the research done by the author which in my opinion makes it an authentic guide for private companies not only in the U S but also in Asia particularly India and China where a huge opportunity awaits companies to mature into sustainable enterprises by involving a large section of society in their IPO M K Chouhan Chairman Mahendra Young Knowledge Foundation and Vice Chairman of Global Advisory Board Asian Centre for Corporate Governance This book contains valuable suggestions for advanced planning for both U S and international IPOs and belongs in the library of every entrepreneur and business executive William C Tyson Associate Professor Legal Studies The Wharton School of the University of Pennsylvania 8 crucial steps to planning a successful IPO International and U S IPO Planning outlines the eight step by step techniques all private companies must follow to prepare for a successful IPO either in the U S or internationally From advance planning techniques for both an international and U S IPO to growing a business through acquisitions and roll ups prior to an IPO to deterring unwanted suitors by inserting carefully placed provisions into the charter and so much more International and U S IPO Planning provides a wealth of practical and insightful guidance to help the private company go public regardless of its size or location

*The Hockey Stick Principles* Bobby Martin, Robert H. Martin, 2016-05-24 What if every successful start-up followed a predictable pattern and by knowing that pattern ahead of time you could be more successful? In *The Hockey Stick Principles*, business consultant Bobby Martin shares his study of more than 100 new businesses from Lending Tree to Under Armour to iContact to show that every one of them has had a hockey stick growth history starting with a tinkering period, moving through the daunting blade years, before finally making it to the crucial inflection point that precedes surging growth. In this simple but incredibly helpful book, Martin takes us through each of those four stages of the hockey stick pattern, giving us a road map that will help any entrepreneur navigate the inevitable ups and downs of their business's early years.

**The Entrepreneur's Guide to Raising Capital** David Nour, 2009-03-20

Ask any established business owner to identify his or her toughest challenge when just starting out, and you'll likely get this answer: raising capital. Most aspiring entrepreneurs know far too little about the sources of money that can help start a business or fuel its growth. Where do you get capital? What are investors looking for? How do you ask for money in a way that gets results? This book answers these and many other critical questions. Even more important, entrepreneur and consultant David Nour shows how to develop long-term relationships with financial partners—the people who can help keep a business humming throughout its life. *The Entrepreneur's Guide to Raising Capital* designed to help entrepreneurs navigate the money-raising maze shows how to attract financing to fund the start-up and growth phases any business moves through. It answers the most common and the most perplexing questions entrepreneurs have about financing a business: How do I put together a credible request for funds? How do I choose wisely from among the plethora of financial and strategic investors, consultants, investment bankers, and other intermediaries? How do I identify and avoid the risks associated with various sources of capital? How do I plan for the right kind, amount, and source of smart capital as the business evolves? How do I get the highest return on invested capital? How do I avoid the biggest mistakes entrepreneurs make when raising capital? This book provides real-life, pragmatic advice from entrepreneurs who have raised money from friends, family, angel investors, and banks, as well as institutional investors such as venture capitalists and private equity firms. It details the process from start to finish while spotlighting the danger spots and ways to avoid them. It will be especially useful to those who are uncomfortable making important financial decisions and to those who are confused by all the conflicting opinions offered by advisors, both well-meaning and otherwise. By showing readers the financing ropes, Nour removes a major source of stress for budding entrepreneurs and moves them closer to their dream: come true, a successful business.
