categories Details on other performance models like the Scirocco Corrado Golf R32 Jetta GLI and more Fresh insights interviews and more Lavishly illustrated pages The Complete Book of Volkswagen GTI will delight and inspire any classic racing fan and VW enthusiast in your life *The RAF's Armourers* Tony Lamsdale, Phil Appleby, 2023-11-23 It is said that one of the earliest trades in the world is that of the armorer Historically it is a profession dated slightly after prostitution but well before banking Since the birth of the Royal Flying Corps in 1912 through to the modern Royal Air Force the role of the armorer has been pivotal Not for nothing did the founder of the RAF Lord Trenchard once declare The armorer without him there is no need for an air force In the years since the need for RAF armorers was first recognized it has been a role that has evolved with the times What has remained constant however is the fact that it is still a fascinating and potentially dangerous trade with many different branches and specialisms In this book the authors one of whom Tony Lamsdale is himself a former RAF armorer reveal the previously untold story of how the trade has adapted to the most modern of military machines the aircraft The authors look at the shared history of the armorer and the RAF through the eyes of those who served These veterans stories span decades and their first hand accounts and insights into conflict and peace time operations demonstrate the qualities and characteristics that make armorers unique The book starts with a brief history of the armorer then before capturing the adventures and exploits of RAF armorers from the Second World War and on into the Cold War The dangerous duties of the armorers on deployment in such places as the Falklands Iran Iraq or Afghanistan are all explored There is also the question of having to learn of bomb dumps the use of small arms and the unique world of the armorer with its own peculiar language and the camaraderie of the crew room With each chapter brought to life through personal anecdotes and shared experiences this book provides an insight into an utterly essential role which has remained largely hidden until now
