

There upon a time, in the cold day, by a distant  
side where darkness reigned

The day a star fell from the sky, and out of its  
wings, floating glow came a gift to humankind  
As the side slowly across the sea, her beauty  
began to reveal the world when beneath her, in her  
right hand, she held the light of life, in her left,  
a golden ring. The music of the harp under the  
surrounding nation. She lay the light down on  
the island, and life and hope sprang out of the  
cold nothingness. Warmth and brightness spread  
over everything that had been dead. Everything  
we knew, for the gift spirit could not return. She  
descended into nature, into the woods, the sea.

Lynne,2020-11-13 This book presents the Metaeconomics Framework and Dual Interest Theory which weave the empathy based moral and ethical dimension back into key economic questions Metaeconomics addresses the problem of placing too much emphasis on the market or the government and thus argues that seeing the link between ego and empathy self and other interest and market and government will lead to a more just fair and sustainable polity The unique Dual Interest Theory proposes that ego based self interest and empathy based other interest are joint and internal to each person it maintains the original proposition from Adam Smith that each person maximizes their own interest which Metaeconomics makes clear involves balancing the two joint interests although self interest is more primal The book begins with an explanation of how Metaeconomics connects the other kinds of economics The book then provides a series of applications of Metaeconomics in heated policy issues such as elections finance family food health natural resources education taxes and extreme inequality among others Finally the book concludes that the only way to save capitalism is to bring empathy into both private and public actions and bring about a more humane balance in market and government      *Official Gazette of the United States Patent Office* United States.
