

Operation

1 Ignition Switch and Lights • Ignition switch is door-key operated. Turn key clockwise for ignition, instruments, and accessories. Parking lights operate by rotating knob to "S" position—also controls instrument light. Turning the knob to "H" will turn headlights on and front parking lights off. A map light switch is located under dash panel, to right of the cigarette lighter.

2 Engine Starting • Pull control knob to start, and release when engine fires. When engine fails to start promptly, release starter for a short interval before next attempt.

3 Engine Choke • Use when starting a cold engine. Pull out choke until engine fires, and return to mid position for rapid warm-up. Release choke fully at earliest possible moment. Do not use choke when engine is hot or flooded.

4 Weather Eye • One simplified control—pull it out in proportion to heat desired. Once adjusted, setting does not need to be disturbed—heat is thermostatically controlled. Turn control to right for "high" blower. This position also gives maximum defrosting. Turn further right to reduce speed. Two deflectors are manually adjustable to control air-flow—mounted under instrument panel.

5 Windshield Wiper • Pull to operate wipers and push to stop at any desired position. The system is operated electrically—not by vacuum—and therefore wiper speed does not vary with car acceleration. Do not manually push wiper blades. Windshield washer is available if desired as an optional dealer accessory.

6 Directional Signal Flasher • Flashes in unison with exterior lights to inform driver of operation.

7 Direction Signal Control • Move control in the direction of intended turn. Signal is automatically cancelled when turn is completed.

8 Parking Brake • To set, pull lever fully rearward. To release, apply rearward pressure and depress top button down until lever is full forward.

9 Radio On-Off-Volume Control • To turn on, rotate inner knob clockwise until "click" is heard. Continued rotation increases volume. To shut off, turn knob left until "click" is heard. Outer ring controls tone. Ignition key does not control radio.

10 Radio Station Control • Tune until you are on station. Extend antenna for greater range. For best reception, select a weak station near 1400 KC and adjust antenna trimmer screw on right side of radio below antenna socket for maximum signal.
