

BUILD YOUR OWN
OFF-ROAD BUGGY
FOR AS LITTLE AS £100

This book, which follows a similar concept to the author's best-selling *Build Your Own Sports Car For As Little As £250*, is a step-by-step guide to building a single-seater off-road buggy. Using standard tools, basic skills and low-cost materials, it shows how to make the frame, and advises how to modify and use cheap but serviceable mechanical components from a donor motorcycle. The result is both a low-cost, entertaining buggy and a learning experience in engineering and design.

This all-colour book includes instructions on:

- The tools and materials required
- What to salvage from your donor motorcycle and where to find what else is needed
- How to make the strong tubular-steel buggy frame, the axles and steering components, and the controls
- How to choose a suitable engine and gearbox
- Alternative ways of making some of the components
- How to carry out finishing and final assembly
- Where to use your buggy and how to drive it safely

Ron Champion is the author of the best-selling *Build Your Own Sports Car For As Little As £250*. After building a simple kart for his son James, he became interested in motorcycle-engined buggies when he was involved in youth and community work, and came up with a basic design similar to the one in this book. Young people in a youth training workshop recycled the major components from scrap motorcycles and successfully built dozens of these buggies, and went on to have hours of fun driving them.

Owner Responsibilities: Know! The author and an expert rider discuss what you as a buggy driver have to know, and details a range of safety advice. **Build Your Own:** A complete step-by-step guide to building a basic buggy frame after powder-coating, a finished buggy in paint through to driving.
