

# An Academic Essay: The Opening Paragraph

---

A good introduction makes your paper more organized and your argument dive deeper, all while compelling the audience to read on. Here are some tips on starting your paper with a solid intro paragraph.

## Make the Intro Your Paper's Road Map

- Clearly tell the reader what you are going to accomplish in your paper.
- Ideally, each main point of your argument should be distilled into a sentence.

## How specific should I get?

Students often get paranoid about not letting on too much about their paper in the introduction.

But an intro should be as specific as possible while still keeping your paragraph succinct and clear.

You might introduce a main source text, offer an anecdote, and/or lay out your methodology for arriving at your thesis statement.

## Opening sentence

Avoid any broad generalizations or boring, obvious statements.

Think about opening your intro with a stimulating quote or a crucial dilemma that you will work to solve.

Attention grabbing anecdotes, examples, or questions are fine, but just remember that you will need to transition between the opening sentence and your argument in just a sentence or two.

## Thesis statement

Your thesis should be the conclusion you have reached in your analysis.

*It should not* tell readers what you are going to do, implore them to read on, or ask a question.

*It should* make a succinct, detailed, arguable claim that you will work to prove throughout your entire paper.

## Process of writing

Although the introduction is the first thing your audience will read (besides your title), it doesn't have to be the first thing you write. The creation of your intro can mirror your drafting and revision process.

1. When you start devising your argument and laying out the movement of the first few paragraphs, begin the first part of your intro.
2. As you continue to dive deeper into your brainstorming, research, and analysis, you may find that your argument delves into places you never thought about initially. As your argument progresses, you can keep building on to your intro.
3. The deepest part of your analysis will eventually become your thesis statement and the final sentence of your introductory paragraph.

Focused on a simple principle and designed to bolster writers' confidence and skills, writing coach at Harvard Business School Mark Rennella offers practical advice for students and budding writers with the goal of leveling the playing field between beginners and those with more experience. After a 30 year career as a writer, instructor and editor, Mark Rennella has crafted a battle tested method to help students and young professionals who want to improve their writing: the One Idea Rule, anchored on the assertion that every component of a successful piece of writing should express only one idea. With The One Idea Rule, writers embarking on their adult lives and professional journeys will have a reliable methodology they can easily remember and count on for all of their writing tasks, as well as increased confidence about the cogency of their writing and its potential for impact in the public sphere. communication style But for teens starting college and young professionals entering the workforce it can be challenging to wield such complex advice to tackle increasingly demanding writing assignments The One Idea Rule is a writing primer aligned and empathetic with any young writer s needs      *Academic Writing Now - with Readings* David Starkey,2024-03-11
