

Step 3 - Connect the Cables

Note: The cable that connects the printer to the computer is not supplied with the printer. You will need to purchase a parallel cable. HP recommends a high-quality IEEE-1284 compliant parallel printer cable (HP part number C2950A or C2951A).

- 1 Turn the computer off.
- 2 Connect one end of the printer cable to the parallel port on the back of the printer and snap both clips onto the notches of the connector.
- 3 Connect the other end of the printer cable to the parallel port on the back of the computer and tighten the screws on the connector.

Note: Do not share the parallel port with a Zip drive or scanner.

- 4 Plug the power cord into the printer and then into a grounded outlet.

Step 4 - Install the Print Cartridges

- 1 Press the Power button to turn on the printer.
- 2 Open the printer cover.
The print cartridge cradles will move to the center of the printer.
- 3 Lift up the print cartridge latches.
- 4 Remove the color print cartridge from its package.
- 5 Gently remove the tape covering the ink nozzles. Be careful not to touch the ink nozzles or the gold-colored contacts.
- 6 Insert and push the print cartridge firmly down into the left cradle and snap the cartridge latch onto the print cartridge.
- 7 Repeat steps 4 to 6 to install the black cartridge into the right cradle.

Note: Both print cartridges must be correctly installed for the printer to work.

- 8 Close the printer cover.
