Disorder Contained Catherine Cox, Hilary Marland, 2022-03-10 *Disorder Contained* is the first historical account of the complex relationship between prison discipline and mental breakdown in England and Ireland. Between 1840 and 1900 the expansion of the modern prison system coincided with increased rates of mental disorder among prisoners exacerbated by the introduction of regimes of isolation, deprivation and hard labour. Drawing on a range of archival and printed sources, the authors explore the links between different prison regimes and mental distress, examining the challenges faced by prison medical officers dealing with mental disorder within a system that stressed discipline and punishment and prisoners' own experiences of mental illness. The book investigates medical officers' approaches to the identification, definition, management and categorisation of mental disorder in prisons and varied, often gendered, responses to mental breakdown among inmates. The authors also reflect on the persistence of systems of punishment that often aggravate rather than alleviate mental illness in the criminal justice system up to the current day. This title is also available as Open Access. [The Carceral Network in Ireland](#) Fiona McCann, 2020-06-26 This book examines the forms and practices of Irish confinement from the 19th century to the present day to explore the social and political failings of 20th and 21st century postcolonial Ireland. Building on an interdisciplinary conference held in the Crumlin Road Gaol, Belfast, the methodological approaches adopted across this book range from the historical and archival to the sociological, political and literary. This edited collection touches on topics such as industrial schools, Magdalen laundries, struggles and resistance in prisons both North and South, Direct Provision and the ways in which prison experiences have been represented in literature, cinema and the arts. It sketches out an uncomfortable picture of the techniques for policing bodies deployed in Ireland for over a century. This innovative study seeks to establish a link between Ireland's inhumane treatment of women and children of prisoners and of asylum seekers today and to expose and pinpoint modes of resistance to these situations. **The Rise and Fall of Christian Ireland** Crawford Gribben, 2021 The Irish experience of Christianity has never been simple or uncomplicated. Here Crawford Gribben describes the ancient emergence, long dominance, sudden division and recent decline of Ireland's most important religion as a way of telling the history of the island and its peoples from earliest times to the present day. *Intellectual Disability and Ireland, 1947-1996* David Kilgannon, 2023-10-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library. *Intellectual Disability and Ireland 1947-1996* explores the varied experiences of the intellectually disabled during the latter half of the mid-twentieth century in Ireland. Addressing the evolution of disability policies and provision, it shows how a range of different actors became engaged in shaping the disability services landscape during this period. Drawing on a variety of sources from government memoranda to RT television programmes, David Kilgannon traces the development of disability services on paper and in reality. This narrative is marked by instances of both striking transformation and significant continuity as the emergence of new policy thinking occurred in tandem with the consolidation

of established approaches The book describes not only how services changed but why offering a unique perspective on the evolution of Irish social policy in the post war years

Confronting Penal Excess David Hayes,2019-11-14 This monograph considers the correlation between the relative success of retributive penal policies in English speaking liberal democracies since the 1970s and the practical evidence of increasingly excessive reliance on the penal State in those jurisdictions It sets out three key arguments First that increasingly excessive conditions in England and Wales over the last three decades represent a failure of retributive theory Second that the penal minimalist cause cannot do without retributive proportionality at least in comparison to the limiting principles espoused by rehabilitation restorative justice and penal abolitionism Third that another retributivism is therefore necessary if we are to confront penal excess The monograph offers a sketch of this new approach late retributivism as both a theory of punishment and of minimalist political action within a democratic society Centrally criminal punishment is approached as both a political act and a policy choice Consequently penal theorists must take account of contemporary political contexts in designing and advocating for their theories Although this inquiry focuses primarily on England and Wales its models of retributivism and of academic contribution to democratic penal policy making are relevant to other jurisdictions too
