**Recent Advances in Attempts to Improve Medication Adherence - from basic research to clinical practice, volume II** Przemyslaw Kardas,Tamas Agh,Ines Potočnjak,Cristina Mihaela Ghiciuc,Maria Teresa Herdeiro,2024-12-04 This exciting Research Topic is the second volume of Recent Advances in Attempts to Improve Medication Adherence from basic research to clinical practice which you can explore here Adequate implementation of evidence based long term therapies is an issue of utmost importance It has a direct impact on both individual and public health as well as on the sustainability of healthcare systems Unfortunately despite more than half a century of extensive research and practical and awareness raising activities medication adherence remains far from perfect Many reasons are responsible for non adherence and the issue is complicated by the rapid aging of the global society the rising tide of non communicable chronic diseases multimorbidity and associated polypharmacy This might be further exacerbated by certain conditions such as the Covid 19 pandemic However one thing is perfectly clear medication non adherence is no longer merely perceived as a patient problem In fact medication adherence depends on many non patient related factors and thus is an important indicator of the quality of care Therefore instead of blaming patients need to be supported in their therapeutic journeys Thus all the stakeholders need to collectively create adherence enabling environments and support patients in the execution of their therapies      *The Global Muslim Brotherhood in Britain* Damon Perry,2018-07-17 Since 2011 with the British Government s counter radicalisation strategy Prevent non violent Islamist groups have been considered a security risk for spreading a divisive ideology that can lead to radicalisation and violence More recently the Government has expressed concerns about their impact on social cohesion entryism and women s rights The key protagonists of non violent Islamist extremism allegedly include groups and individuals associated with the Muslim Brotherhood and Jama at i Islami They have been described as part of the global Muslim Brotherhood but do they constitute a singular phenomenon a social movement This book shows that such groups and individuals do indeed comprise a movement in Britain one dedicated to an Islamic revival It shows how they are networked organisationally bonded through ideological and cultural kinship and united in a conflict of values with the British society and state Using original interviews with prominent revivalist leaders as well as primary sources the book also shows how the

movement is not so much Islamist in aspiring for an Islamic state but concerned with institutionalising an Islamic worldview and moral framework throughout society The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields including education governance law and counterterrorism But this does not simply concern the direction of Government policy or the control of state institutions It most fundamentally concerns the symbolic authority to legitimise a way of seeing thinking and living By assessing this multifaceted conflict the book presents an exhaustive and up to date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities It will be useful for anyone studying Islam in the West government counter terrorism and counter extremism policy multiculturalism and social cohesion

**Stance-Taking in Embodied and Virtual Interaction** Geert Brône, Kurt Feyaerts, Elisabeth Zima , Silva H. Ladewig, 2025-08-28 A fundamental property of human language is its ability to simultaneously represent subjects objects or

events and express the speaker's stance towards these representations. The notion of stance taking involves a positioning along three different axes: epistemic (the distribution of knowledge e.g. by expressing certainty or uncertainty), affective (the expression of attitudes and feelings) and deontic (the expression of desirability or necessity of an action). Psycholinguistics and neighboring fields have a long track record in the study of stance taking as a socially contextualized and recognized interpersonal phenomenon focusing on the lexical and grammatical resources that language users have at their disposal to communicate stance but also on the cognitive processes underlying this positioning. In addition, the phenomenon has been studied extensively in different communicative settings from spontaneous face-to-face communication to institutional and mediated forms of interaction from different disciplinary angles: Interactional Linguistics, Ethnomethodology, Cognitive Psychology, HCI Research etc. and using different empirical methods from controlled experiments to qualitative and quantitative corpus analysis.

**The Birth of Cool** Carol Tulloch, 2016-01-28 It is broadly recognized that black style had a clear and profound influence on the history of dress in the twentieth century with black culture and fashion having long been defined as cool. Yet despite this high profile, in-depth explorations of the culture and history of style and dress in the African diaspora are a relatively recent area of enquiry. *The Birth of Cool* asserts that cool is seen as an arbiter of presence and relates how both iconic and ordinary black individuals and groups have marked out their lives through the styling of their bodies. Focusing on counter and sub-cultural contexts, this book investigates the role of dress in the creation and assertion of black identity. From the gardenia corsage worn by Billie Holiday to the work wear of female African Jamaican market traders through to the home dressmaking of black Britons in the 1960s and the meaning of a polo neck jumper as depicted in a 1934 self-portrait by African American artist Malvin Gray Johnson, this study looks at the ways in which the diaspora experience is expressed through self-image. Spanning the late nineteenth century to the modern day, the book draws on ready-made and homemade fashion, photographs, paintings and films, published and unpublished biographies and letters from Britain, Jamaica, South Africa and the United States to consider how personal style statements reflect issues of racial and cultural difference. *The Birth of Cool* is a powerful exploration of how style and dress both initiate and confirm change and the ways in which they express identity and resistance in black culture.
