Helming,2013-06-27 *Mergent International Manual* ,2009 *Technicals* Leigh Neville,2018-04-19 Over the last 30 years the technical or armed pick up truck has become arguably the most ubiquitous military land vehicle of modern warfare Harking back to the armed Jeeps and Chevrolet trucks of the SAS and Long Range Desert Group in North Africa in World War II the world s first insurgent technicals were those of the Sahrawi People s Liberation Army in Algeria in the late 1970s followed by the Chadian use of technical in the so called Toyota War against Libya Since then technicals have seen use in Somalia Iraq Afghanistan and Libya as well as being used by Western and Russian Special Forces Fully illustrated with commissioned artwork and providing rigorous analysis this is the first history of how this deceptively simple fighting vehicle has been used and developed in conflicts worldwide *Small Navies* Michael Mulqueen,Deborah Sanders,Ian Speller,2016-04-01 Whilst maritime studies tend to reflect the dominance of large navies history shows how relatively small naval forces can have a disproportionately large impact on global events From Confederate commerce raiders in the nineteenth century to Somali pirates today even the most minor of maritime forces can become a key player on a global stage Examining a broad range of examples this volume addresses the roles and activities of small navies in the past and the present at the national regional and international level In particular it focusses on the different ways in which such forces have identified and addressed national and international security challenges and the way in which they interact with other navies and security agencies In addition the collection also investigates the relationship of such navies with non governmental organisations institutions and bodies in pursuit of broader maritime goals be they political financial or environmental Adopting an interdisciplinary approach drawing on the best new research from the fields of international relations security studies strategic studies and maritime history the book examines the diversity of experience amongst different smaller navies and also establishes areas of similarity Divided into two sections part one begins with a number of chapters that are theoretical in nature whilst part two provides case studies that offer a more regional focus including analysis of the challenges facing contemporary navies and historical case studies designed to reveal the experience of small navies over time By adopting an approach that combines historical considerations with analysis of current events the collection offers a unique perspective on the role that small navies have played in wider nautical affairs and their continued impact upon global maritime strategies *Cruising World* ,2007-04 **Engineering News and American Contract Journal** ,1895 *Guinness World Records 2016* Guinness World Records,2015-09-01 The world s best selling annual is back and bursting with thousands of amazing new records never before seen images and mind boggling trivia And as always we have a few more surprises in store for you As well as all your favorite records for talented pets superhuman achievements big stuff and extreme vehicles you ll find show stopping superlatives from brand new categories Topics making their GWR debut

Pirates Peter Lehr, 2019-07-16 In his lively vivid history of pirates Lehr finds some striking continuities from ancient to modern times Foreign Affairs A Choice Outstanding Academic Title of the Year In the twenty first century pirates have regained a central place in Western culture thanks to an odd combination of a blockbuster film franchise and a dramatic rise in piracy around the Horn of Africa In this global history of the phenomenon maritime terrorism and piracy expert Peter Lehr casts fresh light on pirates Ranging from the Vikings and Wako pirates in the Middle Ages to modern day Somali pirates Lehr delves deep into what motivates pirates and how they operate He also illuminates the state's role in the development of piracy throughout history from privateers sanctioned by Queen Elizabeth to pirates operating off the coast of Africa taking the law into their own hands After exploring the structural failures that create fertile ground for pirate activities Lehr evaluates the success of counter piracy efforts and the reasons behind its failures Informative and often entertaining Lehr traces the global history of piracy quoting judiciously from an array of historians and sources to make his case The Times Groundbreaking provides a detailed analysis of the causes of piracy and reveals the operations of pirates ignored in most previous histories David Cordingly author of Under the Black Flag Policymakers would do well to read it as would aspiring pirates in search of career advice Financial Times

The Transformation of International Investment Law and Its Principles Güneş Ünüvar, 2025-10-16 This book explores how international investment law has evolved through the interpretation of key protection standards like Fair and Equitable Treatment and indirect expropriation It examines how arbitral decisions have shaped and been shaped by state treaty making practices particularly in recent new generation agreements The analysis reveals a broader trend toward greater clarity specificity and balance in the design of investment treaties Güneş Ünüvar skillfully combines a voluntarist approach to the making of international investment law and the practical reality that arbitral tribunals are the main interpreters of the will of the States thereby shaping the field as much as or perhaps more than the States themselves Ünüvar's analysis of the development and evolution both in cases and treaties of the two most used investment protection norms is a unique and compelling contribution to understanding the law and policy of investment law and arbitration A must read Prof Eric de Brabandere Leiden University This book is an important contribution to the thinking about the international investment regime It looks at the regime dynamically reflecting on how it has developed historically and how the outcome of disputes has shaped the responses of governments in their treaty making This book will be important reading for everybody thinking critically about the regime whether in academia or in government It is all the more relevant for the work of UNCITRAL Working Group III which has to think both about which reforms to develop but also how to ensure that adjustments can be made in the future Colin Brown European Commission Güneş Ünüvar offers an insightful perspective on the evolving landscape of international investment law By examining the dynamic relationship

between arbitration and treaty making this book sheds light on how protection standards like fair and equitable treatment and indirect expropriation are shaped through practice and interpretation n var s analysis is both thoughtful and accessible shedding light into complex ideas about legal certainty legitimacy and normative development Prof Ursula Kriebaum University of Vienna An important contribution to international investment law In The Transformation of International Investment Law and its Principles G ne n var does a remarkable job of integrating treaty practice and arbitral case law into a comprehensive and accessible study of investment law s most important standards Prof Catharine Titi The French National Centre for Scientific Research CNRS Seaforth World Naval Review 2015 Conrad Waters,2014-11-05 Now in its seventh year this annual has established an international reputation as an authoritative but affordable summary of all that has happened in the naval world in the previous twelve months It combines regional surveys with one off major articles on noteworthy new ships and other important developments Besides the latest warship projects it also looks at wider issues of importance to navies such as aviation and electronics and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance The 2015 edition looks in detail at the French Navy and the Bangladesh and Myanmar navies while significant ships include the Montford Point class mobile landing platforms the Samuel Becket offshore patrol vessels and the Skjold class fast attack craft There are technological reviews dealing with naval aviation by David Hobbs and current mine warfare developments by Norman Friedman while warship recycling is discussed by ian Buxton Intended to make interesting reading as well as providing authoritative reference there is a strong visual emphasis including specially commissioned drawings and the most up to date photographs and artists impressions For anyone with an interest in contemporary naval affairs whether an enthusiast or a defence professional this annual has become required reading
