This book covers organisational behaviour concepts applicable to the African continent and its varied cultures. Chapters thoroughly explore topics including personal and individual factors, motivation, decision making, and communication groups and teams, leadership, and influence, conflict, and negotiation. Each chapter refers to aspects of the African context such as cultural values, Ubuntu, and the informal economy, and relates these to the topics discussed. The book includes illustrative real life examples, vignettes, mini cases, and exercises. Undergraduate and postgraduate students in Africa, and with an interest in the area, will appreciate the focus on a region so little discussed in the business and management literature. Filling a gap in the literature and including a dearth of material, this book will also appeal to current and future practicing managers in African countries, as well as those employed in government and by Non Governmental Organisations (NGOs).
