Ethekwini School Of Nursing:

Social work in the 21st century (Prof.) Mogomme A. Masoga, Allucia L. Shokane, Annaline Keet, Varoshini Nadesan, 2024-12-30 This scholarly book *Social work in the 21st century Scholarship and praxis reimagined towards vulnerability* is the third volume in the Knowledge Pathing Multi Inter and Trans Disciplining in Social Sciences book series. Chapters were invited from contributing authors who are involved in social work practice and education and who are dealing with the issues of poverty inequality and vulnerability in these fields. The focus of the book emanates from the main conference theme and sub themes of the ASASWEI Association of South African Social Work Education Institutions conference held in 2021. The theme of the conference: Pandemics poverty inequality and disability. *Social work in the 21st century* provided an opportunity for deep deliberation knowledge exchange and skills development on how vulnerable communities already on the economic margins of society due to poverty and inequality are further marginalised during significant societal disruptions such as the coronavirus 2019 COVID 19 pandemic. It is these deliberations which culminated in this book. Drawing on the papers presented the chapters promote knowledge and skills around vulnerabilities in our social context and how the social work profession is challenged to interrogate its role in addressing the persistent challenges of poverty and inequality that keep people on the peripheries of human development. The target audience for this book is primarily academics engaged in the field of social work and related fields. *A framework for continuous quality improvement for fast-track queues in clinics in eThekweni* Dudu G. Sokhela, 2024-05-31 This book explores primary health care users who visit the clinic for short consultations those who regularly come to collect medication for chronic illnesses such as hypertension diabetes mellitus arthritis epilepsy tuberculosis HIV and AIDS clients for family planning and babies coming for routine weight monitoring immunisation and routine prophylactic treatment. Since these health care users come for short consultations the research investigates where the bottlenecks in the clinic queues resulted in long waiting times and if these consultations were of expected quality. This book arose from the author's own experience working in a primary health care setting focused on the challenges faced by patients. This book will add to the body of knowledge and management of health care users as this book offers practical recommendations that are tailor-made for specific health care users to be implemented by primary health care providers and settings. Furthermore the country is faced with a burden of communicable and non communicable diseases. New strategies are required to address the ever changing disease pattern and the rapidly growing populations. *The Global Crisis of Drug-Resistant Tuberculosis and Leadership of China and the BRICS* Institute of Medicine, Board on Health Sciences Policy, Forum on Drug Discovery, Development, and Translation, 2014-03-28 Multidrug resistant tuberculosis TB is caused by bacteria resistant to isoniazid and rifampicin the two most effective first line anti TB drugs originally developed and introduced in the 1950 and 1960s. Since 2008 the Forum on Drug Discovery Development and Translation of the Institute of Medicine has hosted or co hosted six domestic and international workshops addressing the global crisis of drug resistant

TB with special attention to the BRICS countries Brazil Russia India China and South Africa The Global Crisis of Drug Resistant Tuberculosis and Leadership of China and the BRICS is the summary of a workshop convened to address the current status of drug resistant TB globally and in China This report considers lessons learned from high burden countries highlights global challenges to controlling the spread of drug resistant strains and discusses innovative strategies to advance and harmonize local and international efforts to prevent and treat drug resistant TB Additionally the report examines the problem of MDR TB and emergent TB strains that are potentially untreatable with drugs available and considers the critical leadership role of the BRICS countries in addressing the threats and opportunities in drug resistant TB *Successful*

Proceedings of the Canadian Society of Civil Engineering Annual Conference 2021 Scott Walbridge, Mazdak Nik-Bakht, Kelvin Tsun Wai Ng, Manas Shome, M. Shahria Alam, Ashraf El Damatty, Gordon Lovegrove, 2022-06-02 This book comprises the proceedings of the Annual Conference of the Canadian Society of Civil Engineering 2021 The contents of this volume focus on specialty conferences in construction environmental hydrotechnical materials structures transportation engineering etc This volume will prove a valuable resource for those in academia and industry **ICU Resource Allocation in the New Millennium** David Crippen, 2012-09-14 Intensive care medicine is one of the fastest growing services provided by hospitals and perhaps one of the most expensive Yet in response to the global financial crisis of the last few years healthcare funding is slowing or decreasing throughout the world How we manage health care resources in the intensive care unit ICU now and in a future that promises only greater cost constraints is the subject of this book the third in an

informal series of volumes providing a global perspective on difficult issues arising in the ICU Taking 12 developed countries as their focus leading experts provide a country by country analysis of current ICU resource allocation A second group of experts use the chapters as a departure point to analyze current ICU resource allocation at the level of the global medical village The process is repeated but with an eye toward the future first country by country then at the global level that takes into account initiatives and reforms now underway A fictional healthcare plan the Fair Equitable Healthcare Plan is put forth to address weaknesses in existing approaches and healthcare experts and ethicists are invited to respond to its often provocative provisions Itself structured as a dialogue the book is an excellent way to start or to continue serious discussion about the allocation of ICU healthcare resources now and in the years ahead

Gogo's Song David R. Donald, 2012-09 It is often interesting to know why an author chose to write a particular story First in order for me to explain this reason I need to tell you a little about my background I have worked as a teacher then as a child psychologist in schools and finally as a lecturer and professor of Educational Psychology in universities It is only since my retirement some twelve years ago that I had the time to start writing stories for both young children and older adolescents Because of my professional background and particular interest in reading development all my published short stories and novels have an underlying purpose And that purpose is to bring to young people reading material that is not only interesting and that they can relate to their personal lives but also carries with it something that could be useful in their psychological development All of my three novels in this Xlibris Corporation series see the relevant titles of the other two novels below have an underlying developmental theme and purpose And this is to provide stories that I hope may help young people deal with the painful feelings and practical difficulties that always have to be faced when someone has lost a loved one Perhaps even more important each of the stories also tells in its own way how the main character overcomes and rises above his or her grief and difficulties In each case this recovery comes not only from the help and support of one or more friends relatives neighbours and teachers but also significantly from the determination and courage of each of the main characters In order to help you relate these important elements to your own life and perhaps to the lives of other young people whom you may know I have added two short sections at the end of each book The first provides you with a number of Questions to think about and the second with a few carefully chosen Activities for you to undertake Even though it may take a little effort please follow through on both of the above elements as they will most definitely help you get the most out of each story Second I believe that an author of any fictional story needs to be personally familiar with the place as well as the language and culture of the people who live there Without this element the story will simply not feel authentic or real to any reader wherever they happen to live in the world My hope again is that this will be true for you In each of my three novels I have a list at the end of the novel of the English translations and a guide to the pronunciation of those important names words and phrases in the indigenous languages that I have chosen to use in the respective novels I think this may contribute to the authenticity of the stories as you read them I
