The recent crises in global economy and in European integration have caused a considerable revival of interest in the Nordic Welfare Model. However, less attention has been given to the ways in which the nations that form Scandinavia or Norden are connected through various forms of inter and transnational cooperation. With contributions from a team of experts in the field, this volume analyses Nordic cooperation in a European perspective and argues that this special form of transnational cooperation has been crucial in the development of the Nordic Welfare Model. In addition, it also contends that the Nordic model of transnational cooperation is a relevant case study when pondering the present problems of European integration. This text will be of key interest to students, researchers and policy makers studying the Nordic Model and transnational cooperation and more generally to those interested in European studies, Scandinavian studies, welfare studies, international relations and regional integration. *Imagining Personal Data* Viki Fors, Sarah Pink, Martin Berg, Tom O'Dell, 2020-05-04

Digital self-tracking devices and data have become normal elements of everyday life. *Imagining Personal Data* examines the implications of the rise of body monitoring and digital self-tracking for how we inhabit experience and imagine our everyday worlds and futures. Through a focus on how it feels to live in environments where data is emergent, present and characterized by a sense of uncertainty, the authors argue for a new interdisciplinary approach to understanding the implications of self-tracking, which attends to its past, present and possible future. Building on social science approaches, the book accounts for the concerns of scholars working in design philosophy and human computer interaction. It problematizes the body and senses in relation to data and tracking devices, presents an accessible analytical account of the sensory and affective experiences of self-tracking and questions the status of big data. In doing so, it proposes an agenda for future research and design that puts people at its centre. *The Swedish Takeover Code* Rolf Skog, Erik Sjöman, 2016-08-12
