

# BIOLOGY

2008

Time: 3 hours

Max. Marks: 75

Note:- Attempt Six questions in all including question No.1 which is compulsory. Select Three questions from one Section and Two questions from the remaining Section.

## OBJECTIVE (COMPULSORY)

Note: In question No.1 do not copy down the part questions in your answer book. Write only the answer against the proper number of the question and its part according to the question paper.

- 1.(a) Fill in the blanks with the correct answers:- (05)
- (i) The basic unit of biological classification is cell.
  - (ii) Leaves remain cool even in sunlight due to the cooling effect of transpiration.
  - (iii) Adiantum has a spore-producing body found at sort.
  - (iv) Gills are the respiratory organs in fish.
  - (v) Malaria is caused by plasmodium.
- (b) Select the correct answer for each from the options given within brackets:- (05)
- (i) The intelligent guess of a scientist in the form of statement is called \_\_\_\_\_ (an experiment, a prediction, a hypothesis, a theory)
  - (ii) Which of the following is not an alga? Chlorella, Volvox, Spirogyra, Yeast
  - (iii) Which one of the following is not a cold-blooded animal? (Fish, Cat, Frog, Snake)
  - (iv) Which one of the following secretions is the most acidic? (Gastric juice, Pancreatic juice, Bile, Saliva)
  - (v) A flower of Brassica contains \_\_\_\_\_ petals. (3, 4, 5, 6)

## SECTION 'A' (ZOOLOGY) (Short-Answer Questions)

- 2.(a) Compare, by drawing a chart, the composition of inhaled and exhaled air in human beings. (05)
- (b) Write four common characteristics of Virus. (04)
- (c) Define Biogenesis and Abiogenesis. Explain Needham's experiment that supports Abiogenesis. (04)
- 3.(a) Draw a neat and labeled diagram of the structure of a human Tooth. (05)
- (b) Define and give one example of each of the following: (04)
- (i) Herbivores (ii) Carnivores
  - (iii) Omnivores (iv) Frugivores
- (c) What is the Portal System? How many kinds of portal Systems are found in frog? Name them. (04)
- 4.(a) Draw a neat and labeled diagram of the Digestive System of frog. (05)
- (b) Write four characteristics of Mammals. (04)

## **Extreme Papers Biology Paper 2008:**

**Synthetic Biology** Markus Schmidt,Alexander Kelle,Agomoni Ganguli-Mitra,Huib de Vriend,2009-09-16 Synthetic biology is becoming one of the most dynamic new fields of biology with the potential to revolutionize the way we do biotechnology today By applying the toolbox of engineering disciplines to biology a whole set of potential applications become possible ranging very widely across scientific and engineering disciplines Some of the potential benefits of synthetic biology such as the development of low cost drugs or the production of chemicals and energy by engineered bacteria are enormous There are however also potential and perceived risks due to deliberate or accidental damage Also ethical issues of synthetic biology just start being explored with hardly any ethicists specifically focusing on the area of synthetic biology This book will be the first of its kind focusing particularly on the safety security and ethical concerns and other relevant societal aspects of this new emerging field The foreseen impact of this book will be to stimulate a debate on these societal issues at an early stage Past experiences especially in the field of GM crops and stem cells have shown the importance of an early societal debate The community and informed stakeholders recognize this need but up to now discussions are fragmentary This book will be the first comprehensive overview on relevant societal issues of synthetic biology setting the scene for further important discussions within the scientific community and with civil society

**Oxford Dictionary of National Biography 2005-2008** Lawrence Goldman,2013-03-07 Who made modern Britain This book drawn from the award winning Oxford Dictionary of National Biography tells the story of our recent past through the lives of those who shaped national life Following on from the Oxford DNB s first supplement volume noteworthy people who died between 2001 and 2004 this new volume offers biographies of more than 850 men and women who left their mark on twentieth and twenty first century Britain and who died in the years 2005 to 2008 Here are the people responsible for major developments in national life from politics the arts business technology and law to military service sport education science and medicine Many are closely connected to specific periods in Britain s recent history From the 1950s the young Harold Pinter or the Yorkshire cricketer Fred Trueman for example From the Sixties the footballer George Best photographer Patrick Lichfield and the Pink Floyd musician Syd Barrett It s hard to look back to the 1970s without thinking of Edward

Heath and James Callaghan who led the country for seven years in that turbulent decade or similarly Freddie Laker pioneer of budget air travel and the comedians Ronnie Barker and Dave Allen who entertained with their sketch shows and sit coms A decade later you probably browsed in Anita Roddick's Body Shop or danced to the music of Factory Records established by the Manchester entrepreneur Tony Wilson In the 1990s you may have hoped that Things can only get better with a New Labour government which included Robin Cook and Mo Mowlam Many in this volume are remembered for lives dedicated to a profession or cause Bill Deedes or Conor Cruise O'Brien in journalism Ned Sherrin in broadcasting or indeed Ted Heath whose political career spanned more than 50 years Others were responsible for discoveries or innovations of lasting legacy and benefit among them the epidemiologist Richard Doll who made the link between smoking and lung cancer Cicely Saunders creator of the hospice movement and Chad Varah founder of the Samaritans With John Profumo who gave his name to a scandal policeman Malcolm Fewtrell who investigated the Great Train Robbery or the Russian dissident Aleksandr Litvinenko who was killed in London in 2006 we have individuals best known for specific moments in our recent past Others are synonymous with popular objects and experiences evocative of recent decades Mastermind with Magnus Magnusson the PG Tips chimpanzees trained by Molly Badham John DeLorean's gull wing car or the new British Library designed by Colin St John Wilson though as rounded and balanced accounts Oxford DNB biographies also set these events in the wider context of a person's life story Authoritative and accessible the biographies in this volume are written by specialist authors many of them leading figures in their field Here you will find Michael Billington on Harold Pinter Michael Crick on George Best Richard Davenport Hines on Anita Roddick Brenda Hale on Rose Heilbron Roy Hattersley on James Callaghan Simon Heffer on John Profumo Douglas Hurd on Edward Heath Alex Jennings on Paul Scofield Hermione Lee on Pat Kavanagh Geoffrey Wheatcroft on Conor Cruise O'Brien and Peregrine Worsthorne on Bill Deedes Many in this volume are naturally household names But a good number are also remembered for lives away from the headlines What in the 1980s became Thatcherism owed much to behind the scenes advice from Ralph Harris and Alfred Sherman children who learned to read with Ladybird Books must thank their creator Douglas Keen while without its first producer Verity Lambert there would have been no Doctor Who Others are ordinary people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in another factory Awarded the George Cross and the George Medal Bywater remains the only non-combatant to have received Britain's two highest awards for civilian bravery

**Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation** Christopher B. Field, Vicente Barros, Thomas F. Stocker, Qin Dahe, 2012-05-28 This Intergovernmental Panel on Climate Change Special Report IPCC SREX explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation Extreme weather and climate events interacting with exposed and vulnerable human and natural systems can lead to disasters Changes in the frequency and

severity of the physical events affect disaster risk but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability Some types of extreme weather and climate events have increased in frequency or magnitude but populations and assets at risk have also increased with consequences for disaster risk Opportunities for managing risks of weather and climate related disasters exist or can be developed at any scale local to international Prepared following strict IPCC procedures SREX is an invaluable assessment for anyone interested in climate extremes environmental disasters and adaptation to climate change including policymakers the private sector and academic researchers

*Oceanography and Marine Biology* S. J. Hawkins, A. J. Evans, A. C. Dale, L. B. Firth, I. P. Smith, 2018-09-03 Chapters 3 and 5 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license <https://www.taylorfrancis.com/books/oceanography-marine-biology-hawkins-evans-dale-firth-smith-e-10-1201-9780429454455>

*Oceanography and Marine Biology* An Annual Review remains one of the most cited sources in marine science and oceanography The ever increasing interest in work in oceanography and marine biology and its relevance to global environmental issues especially global climate change and its impacts creates a demand for authoritative reviews summarizing the results of recent research OMBAR has catered to this demand since its foundation more than 50 years ago Following the favourable reception and complimentary reviews accorded to all the volumes Volume 56 continues to regard the marine sciences with all their various aspects as a unity Physical chemical and biological aspects of marine science are dealt with by experts actively engaged in these fields and every chapter is peer reviewed by other experts working actively in the specific areas of interest The series is an essential reference text for researchers and students in all fields of marine science and related subjects and it finds a place in libraries of universities marine laboratories research institutes and government departments

**Essential Zebrafish Methods: Cell and Developmental Biology** Monte Westerfield, Leonard I. Zon, H. William Detrich III, 2009-08-27 Due to its prolific reproduction and the external development of the transparent embryo the zebrafish is the prime model for genetic and developmental studies as well as research in genomics While genetically distant from humans nonetheless the vertebrate zebrafish has comparable organs and tissues that make it the model organism for study of vertebrate development This book one of two new volumes in the Reliable Lab Solutions series dealing with zebrafish brings together a robust and up to date collection of time tested methods presented by the world's leading scientists Culled from previously published chapters in *Methods in Cell Biology* and updated by the original authors where relevant it provides a comprehensive collection of protocols describing the most widely used techniques relevant to the study of the cellular and developmental biology of zebrafish The methods in this volume were hand selected by the editors whose goal was to provide a handy and cost effective collection of fail safe methods tips and tricks of the trade to both experienced researchers and more junior members in the lab Provides busy researchers a quick reference for time tested methods and protocols that really work updated where possible by the original authors Gives pragmatic wisdom to the

**Eriophyoid Mites: Progress and Prognoses** Edward A. Ueckermann, 2010-09-23 Fourteen informative papers dealing with their DNA species interactions adventiveness host specificity potential as bio control agents of weeds chemical control behaviour their role in fungal pathogen epidemiology influence in forests and on ornamentals collecting and mounting techniques and their interaction with crops are presented here This is an extensive and valuable contribution to eriophyoid science and a must for present and future researchers in this field

**Integrating Ecology and Poverty Reduction** Jane Carter Ingram, Fabrice DeClerck, Cristina Rumbaitis del Rio, 2012-02-15 In the past the science of ecology has frequently been excluded from the development agenda for various reasons Increasingly however there has been a renewed interest in finding more ecologically sustainable means of development that have required a strong foundation in ecological knowledge for example EcoAgriculture Partnerships EcoHealth presented at ESA and EcoNutrition proposed by Deckelbaum et al Each of these examples has already taken the critical first step at integrating ecological knowledge with agriculture health and nutrition respectively However this is only the first step more attention needs to be placed not only on the role that two fields can play towards poverty alleviation but on the role of a truly integrated interdisciplinary approach towards development goals that is firmly grounded in ecological understanding We feel that a critical look at what ecology can and cannot provide to the development agenda in light of the Millennium Development goals is timely and crucial The introduction and the final section of the book will then integrate the lessons and principles outlined in each of the chapters All chapter authors will be heavily encouraged to focus on how their sub discipline in ecology impacts overall human well being and environmental sustainability

*Extremophiles Handbook* Koki Horikoshi, Garabed Antranikian, Alan T. Bull, Frank T. Robb, Karl O. Stetter, 2010-12-08 The Extremophiles Handbook brings together the rapidly growing and often scattered information on microbial life in the whole range of extreme environments This book will be a useful reference for finding clues to the origin of life and for exploring the biotechnology potential of these fascinating organisms

**Extreme Papers Biology Paper 2008 Introduction**

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Extreme Papers Biology Paper 2008 free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Extreme Papers Biology Paper 2008 free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Extreme Papers Biology Paper 2008 free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Extreme Papers Biology Paper 2008. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users

should always be cautious and verify the legality of the source before downloading Extreme Papers Biology Paper 2008 any PDF files. With these platforms, the world of PDF downloads is just a click away.

### **FAQs About Extreme Papers Biology Paper 2008 Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Extreme Papers Biology Paper 2008 is one of the best book in our library for free trial. We provide copy of Extreme Papers Biology Paper 2008 in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Extreme Papers Biology Paper 2008. Where to download Extreme Papers Biology Paper 2008 online for free? Are you looking for Extreme Papers Biology Paper 2008 PDF? This is definitely going to save you time and cash in something you should think about.
