Smith, 2018-01-12 This title was first published in 2002 Drawing on extensive primary research Greg Smith describes the shifting cultural identities of the English watercolour and the English watercolourist at the end of the eighteenth and the beginning of the nineteenth century His convincing narrative of the conflicts and alliances that marked the history of the medium and its practitioners during this period includes careful detail about the broader artistic context within which watercolours were produced acquired and discussed Smith calls into question many of the received assumptions about the history of watercolour painting His account exposes the unsatisfactory nature of the traditional narrative of watercolour painting s development into a high art form which has tended to offer a celebratory focus on the innovations and genius of individual practitioners such as Turner and Girtin rather than detailing the anxieties and aspirations that characterized the ambivalent status of the watercolourist The Emergence of the Professional Watercolourist is published with the assistance of the Paul Mellon Foundation [The History and Architecture of Cardiff Civic Centre](#) John B. Writing Welsh History Huw Pryce,2022-04-07 Writing Welsh History is the first book to explore how the history of Wales and the Welsh has been written over the past fifteen hundred years By analysing and contextualizing a wide range of historical writing from Gildas in the sixth century to recent global approaches it opens new perspectives both on the history of Wales and on understandings of Wales and the Welsh and thus on the use of the past to articulate national and other identities The study's broad chronological scope serves to highlight important continuities in interpretations of Welsh history One enduring preoccupation is Wales's place in Britain Down to the twentieth century it was widely held that the Welsh were an ancient people descended from the original inhabitants of Britain whose history in its fullest sense ended with Edward I's conquest of Wales in 1282 4 their history thereafter being regarded as an attenuated appendix However Huw Pryce shows that such master narratives based on medieval sources and focused primarily on the period down to 1282 were part of a much larger and more varied historiographical landscape Over the past century the thematic and chronological range of Welsh history writing has

expanded significantly notably in the unprecedented attention given to the modern period reflecting broader trends in an increasingly internationalized historical profession as well as the influence of social economic and political developments in Wales and elsewhere

Swansea and Nantgarw Porcelains Howell G.M. Edwards, 2017-03-27 This book describes a holistic study of the porcelain manufactured at Nantgarw and Swansea in the first quarter of the 19th Century using both scientific analytical data and historical provenancing This porcelain is acclaimed as some of the finest and most translucent porcelain ever produced These two porcelain factories are linked through the artistic and creative activities of the enigmatic William Billingsley and had a strictly limited production over only three or four years during the period 1812 1820 The earliest chemical analysis of these porcelains were undertaken almost 100 years ago and are compared with the results of more recent analyses The chemical composition of these porcelains their artistic decoration and the struggle to maintain quality production is reviewed Scientific explanations are proposed for the characteristic Swansea duck egg porcelain translucency and for the Nantgarw iridescence The book is well illustrated throughout and affords a good basis for the further in depth study of Swansea and Nantgarw porcelains

Race and Labour in Twentieth-Century Britain Kenneth Lunn, 2019-08-16 This collection of essays was put together with a view to furthering the study of the history of immigration into Britain Naturally enough a good deal of attention in recent years has been directed at race relations in Britain from the 1960s onwards As Peter Fryer's study *Staying Power* 1984 has shown there is a rich and important history of black settlement before these years and its significance in shaping responses towards more recent migrants has still to be adequately evaluated We are constantly being reminded of the legacy of empire and its importance in terms of influencing current policy and attitudes

The Quest for the Holy Grail of Graig Trewyddfa, Swansea John Peter Thomas, 2020-08-21 Over about 200 years up until the 1930s the open valley of the River Tawe became one of the most heavily industrialised areas of the developed world The Holy Grail which lay beneath the lands of Graig Trewyddfa in Swansea locally known as the Great Penvilia Five Foot Vein was renowned for its quality smelting metals at the time required more than three parts of coal to every one of metal ore so this was of major economic benefit Mining the Penvilian coal brought about its own problems use of child labour serious accidents flooding and explosions It became apparent in the mid 1880s that it was cheaper to smelt ores at the source rather than ship them to Swansea this led to the gradual cessation of copper smelting and closing of most coal mines in the Swansea area
