Qualitative methods of business research are emerging as vital tools Business anthropology is at the heart of this movement Although many recent books provide nuts and bolts advice regarding the field Rethinking Business Anthropology Cultural Strategies in Marketing and Management discusses the intellectual traditions from which the discipline has emerged and how this heritage opens up new vistas for business research Gaining these broader perspectives is essential as business anthropologists transcend being mere research technicians and seek to influence organizational policies and strategies Opening chapters deal with the current status of the field and its relationship to ecological and cultural sustainability This is followed by discussions of the intellectual foundations of anthropology and their continued importance to business anthropology An array of chapters provides illustrative applications of business anthropology in order to demonstrate the field's unique and powerful potentials within both scholarly and practitioner research The book concludes with a discussion of the role of business anthropologists in dealing with indigenous people rural populations and cultural enclaves Increasingly businesses seek to connect with such communities even though mainstream leaders and negotiators often lack the skills necessary to effectively do so Business anthropologists with their dual background in business and cultural diversity are poised to excel in this capacity An appendix by Robert Tian editor of the International Journal of Business Anthropology provides a useful overview of the field as it now exists As business anthropology comes of age this timely monograph provides the perspectives needed for the growth and further development of the field and those who work within it Excellent for the professional bookshelf and as a textbook
