Strategic Management** Elisha Stephens & Brice Martin, 2019-08-28 The knowledge of business policy and techniques of
strategic management is the need of the hour to prospective business managers The present competitive environment has
brought several drastic changes in policy making and strategic management Hence there is necessity of theoretical
understanding about the business policy as well as strategic management Businesses need to implement sound strategies to
succeed Those strategies form part of an overall management and business policy that guides the business in connecting with
customers generating profits and managing resources The related concepts of strategic management and business policy are
keys to help small business owners manage their responsibilities and set clear objectives Strategic management represents a
theoretical concept first introduced by Peter Drucker in the mid 20th century The idea behind strategic management is that
organizations will be better equipped to meet their goals and objectives if the owners and managers adopt a clear business
philosophy For many businesses that philosophy will be to increase their share of the market For others it might be about
making a difference in the community or about developing new products Sometimes a combination of motives drives the
management's strategy In any case strategic management helps the business to keep its sights set on what matters most and
to not get distracted by ancillary concerns Strategic management is the art and science of formulating implementing and
evaluating cross functional decisions that will enable an organization to achieve its objectives It is the process of specifying
the organization's objectives developing policies and plans to achieve these objectives and allocating resources to implement
the policies and plans to achieve the organization's objectives Strategic management therefore combines the activities of the
various functional areas of a business to achieve organizational objectives This book is designed to support and enhance both
