Rosenberger, Henry McHenry,2013-06-29 The study of primate locomotion is a unique discipline that by its nature is interdisciplinary drawing on and integrating research from ethology ecology comparative anatomy physiology biomechanics paleontology etc When combined and focused on particular problems this diversity of approaches permits unparalleled insight into critical aspects of our evolutionary past and into a major component of the behavioral repertoire of all animals Unfortunately because of the structure of academia integration of these different approaches is a rare phenomenon For

instance papers on primate behavior tend to be published in separate specialist journals and read by subgroups of anthropologists and zoologists thus precluding critical syntheses In the spring of 1995 we overcame this compartmentalization by organizing a conference that brought together experts with many different perspectives on primate locomotion to address the current state of the field and to consider where we go from here The conference Primate Locomotion 1995 took place thirty years after the pioneering conference on the same topic that was convened by the late Warren G Kinzey at Davis in 1965 *Gorillas* Letitia Farris-Toussaint, Martin Harvey, 2009-03-01 Gorillas once considered ferocious beasts are now seen as gentle giants Since discovery mountain gorillas have been subject to much observation by field biologists and later by wildlife photographers and writers Only in recent times have their cousins the lowland gorillas received such attention their forest homes having kept them much less accessible to the outside world In this book the authors with stunning photography and concise text follow the life habits and fight for survival of these magnificent creatures

Travel Guide To Rwanda Nicky Huys, 2025-10-30 Discover the beauty and diversity of Rwanda with the Travel Guide To Rwanda This comprehensive guide offers essential information for travelers seeking to explore this extraordinary country known as the Land of a Thousand Hills From the vibrant capital of Kigali where history and modernity intertwine to the breathtaking Volcanoes National Park home to the majestic mountain gorillas this guide covers everything you need for an unforgettable trip Dive into Rwandan culture by visiting local markets savoring traditional cuisine and experiencing the warmth of Rwandan hospitality Whether you're an adventure seeker looking for hiking trails a wildlife enthusiast eager to spot unique species or a culture lover wanting to learn about Rwanda's rich heritage this book is your ultimate companion With tips on accommodation transportation and local customs you'll be well prepared to embark on your Rwandan adventure

vendors artists and activists each with their own unique story to tell We discover hidden gems from charming speakeasies to underground art galleries and explore the city s rich cultural tapestry from its world class museums to its thriving culinary scene This book is an ode to the indomitable spirit of New York City a city that has weathered wars economic depressions and terrorist attacks and has emerged stronger each time It is a city of contrasts and contradictions where luxury and poverty collide where ambition and despair intertwine Yet it is a city that continues to beckon people from all over the world offering them the promise of a better life With vivid prose and insightful observations this book captures the essence of New York City its beauty and its grit its triumphs and its challenges It is a must read for anyone who has ever been captivated by the magic of the Big Apple or who dreams of one day experiencing its vibrant energy for themselves Join us on a journey through the streets of New York City and let us experience the magic of this iconic metropolis together If you like this book write a review

Great Apes Christopher Gudgeon,2025-02-11 Let s meet the great ape family Get to know our charismatic chimpanzee cousins the peaceful bonobos three types of high flying orangutans and those gentle giants of the jungle the gorillas Discover where and how they live their biology what they eat and what they share in common with humans beyond their opposable thumbs These giant mammals are our closest relatives in the animal world known for their intelligence complex social structures and communication skills But great apes everywhere are in trouble Their habitat is being destroyed by deforestation and the effects of climate change Their population is dropping and fast In Great Apes find out what conservationists scientists and young people all over the world are doing to protect them The epub edition of this title is fully accessible

Encountering Gorillas James L. Newman,2013-07-05 Gorillas the largest of the apes inhabiting our planet have been a source of fear awe and inspiration to humans In this book James L Newman brings a lifetime of study of Africa to his compelling story of the rich and varied interaction between gorillas and humans since earliest contact He illuminates the complex relationship over time through the interlinked themes of discovery exploitation understanding and continuing survival Tragically the number of free living gorillas facing habitat loss disease and poaching has declined dramatically over the course of the past century and the future of the few that remain is highly uncertain At the same time those in zoos and sanctuaries now lead much more secure lives than they did earlier Newman follows this transition highlighting the roles played by key individuals both humans and gorillas Among the former have been adventurers opportunists writers and scientists The latter include real gorillas such as Gargantua and Koko and fictional ones notably King Kong and Mighty Joe Young This thoughtful and engaging book helps us understand how our image of gorillas has been both distorted and clarified through culture and science for centuries and how we now control the destiny of these magnificent great apes

This is likewise one of the factors by obtaining the soft documents of this **Gorillas Gentle Giants Of The Forest** by online. You might not require more time to spend to go to the book commencement as well as search for them.
