Corporate Finance Law Louise Gullifer, Jennifer Payne, 2015-10-22 The second edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law Fully updated it reflects developments in the law and the markets in the continuing aftermath of the Global Financial Crisis One of its distinctive features is that it

gives equal coverage to both the equity and debt sides of corporate finance law and seeks where possible to compare the two. This book covers a broad range of topics regarding the debt and equity raising choices of companies of all sizes from SMEs to the largest publicly traded enterprises and the mechanisms by which those providing capital are protected. Each chapter analyses the present law critically so as to enable the reader to understand the difficulties, risks and tensions in this area of law and the attempts made by the legislature and the courts as well as the parties involved to deal with them. This book will be of interest to practitioners, academics and students engaged in the practice and study of corporate finance law.

Sustainable Peace in Northeast Asia Yong-Shik Lee, 2023-09-05. *Sustainable Peace in Northeast Asia* examines the causes of lasting and complex tensions in the region from underlying political, historical, military and economic perspectives, discusses their historical development and political economic implications for the world and explores possible solutions to build lasting peace. The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region. Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances, diplomacy, trade and investment. The book also discusses the influence of these external powers over the crisis, their political and economic objectives in the region, their strategies and the dynamics that their engagement has created. Both South Korea and North Korea have sought reunification of the Korean peninsula, which will have a substantial impact on the region. The book examines its justification, feasibility and effects for the region. The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia. A relatively small country in terms of its population, Mongolia has rarely been examined in this context. *Sustainable Peace in Northeast Asia* makes a fresh assessment of its potential role.

Hidden in Plain Sight Peter J. Wallison, 2016-03-29. The 2008 financial crisis, like the Great Depression, was a world historical event. What caused it will be debated for years, if not generations. The conventional narrative is that the financial crisis was caused by Wall Street greed and insufficient regulation of the financial system. That narrative produced the Dodd-Frank Act, the most comprehensive financial system regulation since the New Deal. There is evidence, however, that the Dodd-Frank Act has slowed the recovery from the recession. If insufficient regulation caused the financial crisis, then the Dodd-Frank Act will never be modified or repealed; proponents will argue that doing so will cause another crisis. A competing narrative about what caused the financial crisis has received little attention. This view, which is accepted by almost all Republicans in Congress and most conservatives, contends that the crisis was caused by government housing policies. This book extensively documents this view. For example, it shows that in June 2008, before the crisis, 58 percent of all US mortgages were subprime or other low-quality mortgages. Of these, 76 percent were on the books of government agencies such as Fannie Mae and Freddie Mac. When these mortgages defaulted in 2007 and 2008, they drove down housing prices and weakened banks and other mortgage holders, causing the crisis. After this book is published, no one will be able to claim that the financial crisis was caused by insufficient regulation or defend Dodd-Frank without coming to
