Public Policy in Agriculture

Ashok K. Mishra, Davide Viaggi, Sergio Gomez y Paloma, 2017-08-07 In recent years developed countries have formulated public policies in agriculture ranging from supporting rural life and farm income to promoting sustainability of food and fibre production Public Policy in Agriculture Impact on Labor Supply and Household Income addresses the lack of empirical research in this area It explores the impact of differing approaches to public policy through a series of international case studies from the USA and Canada to South Korea Norway Slovenia and Taiwan At a time when much of the developed world has been experiencing budget deficits and policy makers and the public in general have re opened the debate on public expenditures in the agricultural sector this is a timely volume Mishra Viaggi and Gomez y Paloma have written an authoritative guide to agricultural public policy that will serve as a reference for academics researchers students and policy makers

Poverty, Prosperity, and Planet Report 2024 World Bank, 2024-10-15 The Poverty Prosperity and Planet Report 2024 is the latest edition of the series formerly known as Poverty and Shared Prosperity The report emphasizes that reducing poverty and increasing shared prosperity must be achieved in ways that do not come at unacceptably high costs to the environment The current polycrisis where the multiple crises of slow economic growth increased fragility climate risks and heightened uncertainty have come together at the same time makes national development strategies and international cooperation difficult Offering the first post Coronavirus COVID 19 pandemic assessment of global progress on this interlinked agenda the report finds that global poverty reduction has resumed but at a pace slower than before the COVID 19 crisis Nearly 700 million people worldwide live in extreme poverty with less than US 2.15 per person per day Progress has essentially plateaued amid lower economic growth and the impacts of COVID 19 and other crises Today extreme poverty is concentrated mostly in Sub Saharan Africa and fragile settings At a higher standard more typical of upper middle income countries US 6.85 per person per day almost one half of the world is living in poverty The report also provides evidence that the number of countries that have high levels of income inequality has declined considerably during the past two decades but the pace of improvements in shared prosperity has slowed and that inequality remains high in Latin America and the Caribbean and Sub Saharan Africa Worldwide people's incomes today would need to increase fivefold on average to reach a minimum prosperity threshold of US 25 per person per day Where there has been progress in poverty reduction and shared prosperity there is evidence of an increasing ability of countries to manage natural hazards but climate risks are

significantly higher in the poorest settings Nearly one in five people globally is at risk of experiencing welfare losses due to an extreme weather event from which they will struggle to recover The interconnected issues of climate change and poverty call for a united and inclusive effort from the global community Development cooperation stakeholders from governments nongovernmental organizations and the private sector to communities and citizens acting locally in every corner of the globe hold pivotal roles in promoting fair and sustainable transitions By emphasizing strategies that yield multiple benefits and diligently monitoring and addressing trade offs we can strive toward a future that is prosperous equitable and resilient

Improving a Country's Education Nuno Crato, 2020-11-23 This open access book compares and contrasts the results of international student assessments in ten countries The OECD's Programme for International Student Assessment PISA released the results of its 2018 assessment in December 2019 This book reflects the debates that typically follow the release of these results and focuses on the causes of differences between countries Such causes include continuous decline in one country improvement combined with increasing internal inequalities in another country or rapid improvement in spite of an outdated curriculum in yet another In addition the book discusses a number of general questions Is knowledge outdated Are computers taking over and replacing teachers Are schools killing creativity Are we adequately preparing the next generation Are schools failing to educate our kids The book starts out with a summary of PISA's evolution and PISA results and an explanation of the major factors that play a role in changes in countries' results The next ten chapters are devoted to ten specific countries offering a summary of data and an explanation of the major drivers for changes in education results for each one Each chapter includes a short description of the country's educational system as well as the impact of PISA and other ILSA studies on the country's educational policies The chapters also include a timeline of policy measures and main hallmarks of the country's educational evolution discussing the impact of these measures on its PISA results A final reference chapter explains what PISA is what it measures and how While highlighting the 2018 results the book also takes into consideration previous results as well as long term initiatives This book gathers the contribution of well known and respected experts in the field Specialists such as Eric Hanushek for the US Tim Oates for England Montse Gomendio for Spain Gunda Tire for Estonia and all other contributors draw on their vast experience and statistical analysis expertise to draw a set of rich country lessons and recommendations that are invaluable for all of those who care about improving a country's education system

Handbook of Regional Growth and Development Theories Roberta Capello, Peter Nijkamp, 2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in

theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field

The Role of Intergovernmental Fiscal Transfers in Improving Education Outcomes Samer Al-Samarrai, The World Bank, Blane Lewis, 2021-07-23 The majority of the world's children live in countries where local governments are responsible for the provision of basic education services Although subnational governments manage their own education systems they often rely on transfers from the central government for funding The main purpose of this study is to assess how these fiscal transfers affect public funding for education and how they ultimately affect student schooling and learning outcomes Through a careful analysis of how fiscal transfers have affected education systems in different contexts the investigation develops a set of principles to support improvements in the design and implementation of transfer systems with a specific focus on the provision of education services The study is centered on seven country case studies that aim to answer a set of common research questions using a similar approach Country case studies were conducted in Brazil Bulgaria China Colombia Indonesia Sudan and Uganda The analysis shows that fiscal transfer mechanisms can improve the adequacy of public education spending reduce spending inequalities between regions and improve spending efficiency Moreover the study highlights that carefully designed and implemented transfer systems can help raise overall education outcomes and reduce education inequality This publication was funded by a grant from the Results in Education for All Children REACH trust fund at the World Bank REACH is supported by the government of Germany through the Federal Ministry for Economic Cooperation and Development the government of Norway through NORAD and the government of the United States of America through the U S Agency for International Development
