

Start

At corner

Look again right blind spot, right mirror, ahead then out the back window.

Try to keep approx 1ft from the kerb at all times.

Note: at the apex of the corner you can go wider so long as you come back in as you reach the end of the corner.

Try not to allow your car to come in closer than 1ft from the kerb as this will help prevent hitting the kerb.

For the corner section, looking out the backseat left side window will give a guide to your progress and position.

Apex

When parallel with the new road, straighten up your front wheels.

Continue until approx 4 car lengths into the new road.

Do not go so wide that your car crosses over the centreline of the new road.

A good guide for the straight sections: while looking out the back window you will see that the kerb visually 'cuts' into the backseat, try to keep the kerb in this position.
