students are certain to appreciate this book **Looking Beyond Profit** Peggy Chiu, 2016-05-06 In this revealing book Peggy Chiu argues against the common belief that maximizing wealth is the primary concern of ordinary small shareholders when they make their share buying decisions This fascinating in depth study of small shareholders provides both theoretical and empirical insights into their personal values and attitudes to corporate social responsibility CSR The author establishes that personal values are a major influence on decisions about the type of investments people make and about which companies they choose to invest in Financial risk and return are far from being the only factors that determine small shareholders investment decisions irresponsible behaviour is not acceptable and will not attract investment from this significant group Looking Beyond Profit is an essential book not just for encouraging investment managers to look more closely at their environmental impacts but for finance advisers and all concerned with corporate governance either as practitioners researchers business educators or students *A Step-by-Step Guide to Exploratory Factor Analysis with SPSS* Marley W. Watkins, 2021-06-21 This is a concise easy to use step by step guide for applied researchers conducting exploratory factor analysis EFA using SPSS In this book Dr Watkins systematically reviews each decision step in EFA with screen shots and code from SPSS and recommends evidence based best practice procedures This is an eminently applied practical approach with few or no formulas and is aimed at readers with little to no mathematical background Dr Watkins maintains an accessible tone throughout and uses minimal jargon to help facilitate grasp of the key issues users will face while applying EFA along with how to implement interpret and report results Copious scholarly references and quotations are included to support the reader in responding to editorial reviews This is a valuable resource for upper level undergraduate and postgraduate students as well as for more experienced researchers undertaking multivariate or structure equation modeling courses across the behavioral medical and social sciences
