

Scientific Report

Title:

The title should simply introduce what your experiment is about

Example: The role of light in Photosynthesis

Introduction:

- Write a paragraph that gives your readers background information to understand your experiment.
- This includes explaining scientific theories, processes and other related knowledge.

Example:

Photosynthesis is a vital process for life. It occurs when plants intake carbon dioxide, water and light, and results in the production of glucose and water. The light required for photosynthesis is absorbed by chlorophyll, the green pigment of plants, which is contained in the chloroplasts.

The glucose produced through photosynthesis is stored as starch, which is used as an energy source for the plant and its consumers.

The presence of starch in the leaves of a plant indicates that photosynthesis has occurred.

Aim:

- The aim identifies what is going to be tested in the experiment.
- This should be short, concise and clear

Example:

The aim of the experiment is to test whether light is required for photosynthesis to occur.

Hypothesis

- The hypothesis is a prediction of the outcome of the experiment.
- You have to use background information to make an educated prediction.

Example:

It is predicted that photosynthesis will only occur in leaves that are exposed to light and not in leaves that are not exposed to light. This will be indicated by the presence of absence of starch in the leaves

Risk Assessment:

- Identify the hazards associated with the experiment and provide a method to prevent or minimise the risks

Example:

Risk	Assessment
Scissors are sharp and can cause injury	Use scissors correctly Wear closed durable shoes to prevent injury from falling sharp objects
Methylated spirits are highly flammable and can cause burns or fires	Before using methylated spirits, ensure that all ignition sources such as bunsen burners and matches are extinguished.

How To Write A Science Report For Kids

M Mosston

How To Write A Science Report For Kids:

Embracing the Song of Term: An Mental Symphony within **How To Write A Science Report For Kids**

In a world consumed by screens and the ceaseless chatter of instantaneous conversation, the melodic elegance and mental symphony created by the published word frequently fade in to the background, eclipsed by the persistent noise and interruptions that permeate our lives. But, situated within the pages of **How To Write A Science Report For Kids** a charming fictional prize overflowing with fresh feelings, lies an immersive symphony waiting to be embraced. Crafted by an outstanding composer of language, this captivating masterpiece conducts viewers on a psychological trip, skillfully unraveling the hidden tunes and profound influence resonating within each cautiously crafted phrase. Within the depths of this poignant examination, we shall examine the book is central harmonies, analyze their enthralling publishing style, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
