*[Written by a student in the Labour Studies program, used with permission]*

My name is Carlo, and I was born in June, 19XX, in Italy. Our family, made up of my mother, father, and a brother, emigrated to Noranda, Quebec, when I was five years old. I encountered my first, but not last, taste of racism when kids in the neighborhood laughed at my poor command of English. As fast as I could I learned not only English, but French as well. I became trilingual, speaking fluent French and English, as well as Italian. In the process, I made new friends from a lot of different cultural backgrounds.

We then moved to Toronto, Ontario, where my dad got work in a rubber factory. From my earliest days, I knew our family had to struggle for every penny. My Mom baked pizza which my brother sold by the slice, door to door. I caddied at the local golf courses and brought home all the money that I made. I hated it when other kids made fun of working people, like garbage collectors, who cleaned up trash for a living.

When I was in grade six, I was ill in hospital for two months with a kidney infection, and it changed my whole life. I seriously took up playing guitar. I began to do photography, and joined the audiovisual club. I discovered I was artistic with an interest in graphic art, although I didn't always agree with the kind of art assignments the teacher gave us. However, I had no idea what to do after high school graduation. Thinking electronics was the wave of the future, I enrolled in and graduated with a diploma from George Brown College in Instrumentation Technology. I was hired on by Ontario Hydro as an apprentice.

Life was magical for a single guy in Toronto at this time. I made quite a bit of money. I enjoyed meeting and socializing with many new friends from a variety of different cultures. During this time, I met and married my wife, Valerie, a Registered Nurses' Assistant, and soon we had two wonderful children, a daughter, Carla and a son, Nicholas. With new family responsibilities, I felt there was not enough opportunity for advancement at work. My wife and I thought of places we would like to live such as the east coast. But there were no jobs there. We finally decided to move to northern B.C. when I was offered a job with a forestry company.

Because of the children's activities, I soon became involved in the community coaching children's hockey and soccer, and being a scout leader. At work, I joined the Pulp Mill Recreation Club, eventually becoming president. There were a lot of things that needed changing. I decided I wanted our company to start a wellness program and researched to prove to them that healthy employees tremendously reduced absenteeism and health costs to the company. I wanted the company to
