National Advisory Committee for Aeronautics,1943 Chiefly translations from foreign aeronautical journals Experimental Investigation of a Model of a Two-stage Turboblower S. Dovjik,W. Polikovsky,1943 In the present paper an investigation is made of two stages of a multistage turboblower having a vaneless diffuser behind the impeller and guide vanes at the inlet to the nest stage The method employed was that of investigating the performance of the successive elements of the blower the impeller vaneless diffuser ets whereby the kinematics of the flow through the blower could be followed and the pressure at the different points computed The character of the flow and the physical significance of the loss coefficients could thereby be determined so as to secure the best agreement of the computed with the actual performance of the blower Since the tests were carried out for various delivery volumes the dependence of the coefficients on a number of factors angle of attack velocities etc could be obtained The distribution of the losses that occur during the transformation of dynamic pressure at the impeller exit into static pressure could be found and likewise the range within which the friction coefficient varies in the vaneless diffuser With the aid of factors having a certain physical significance the centrifugal blower could be computed on the basis of a more or less schematical consideration of the phenomena occuring during the air flow through it and the use of arbitrary factors and recourse to the geometrical similtude law thus avoided The present investigation largely summarizes all the previous work af the CHI Blower Section on the different elements of a centrifugal blower Some considerations on the analysis of model test data for application to full scale are presented in the appendix **Technical Memorandum - National Advisory Committee for Aeronautics** ,1942 Chiefly translations from foreign aeronautical journals **VINTROPEDIA - Vintage Computer and Retro Console Price Guide 2009** Michael Starr,Craig Chapple,2008-07-09 Covering a time span of 1968 to 1998 and encompassing a spectrum of over 14 000 items across the history of the computer console accessories and software markets the Vintropedia 2009 Price Guide is the definitive resource to a collector s needs Included within are prices in GBP machine specifications regions of origin release dates model names publishing companies old ads and more Look no further than Vintropedia a guide created by collectors for collectors **Rand-McNally Official Railway Guide and Hand Book** ,1886
