10 MARK QUESTION (Part a)

Step 1: Definition: Define a key word in the question

Step 2: Definition: Define another key word in the question (if there is another one)

Step 3: Definition: Define another key word in the question (if there is another one)

Step 4: Real life example: Briefly explain a real life example.

Step 5: Draw the diagram: Draw it accurately and fully labelled and with a title on top (clearly stating what it is showing, if appropriate the market, and where). Where possible, apply your example: e.g. Quantity of Oil (barrels), Price of Oil (\$).

Step 6 (i) Tell us what the diagram shows, in general. **Explain** a specific insight of **the diagram** (i.e. "As the diagram shows, the warmer weather results in a greater demand for ice cream. At Price P1, the quantity demanded increases from Q1 to Q2.")

Step 6 (ii) Tell using specific reference points on the diagram, subsequent effects, changes or knock-on effects (i.e. The rightward shift of the demand curve from D1 to D2, puts upward pressure on the price P1. This acts as a signal to producers that they can raise their price due to excess demand leading to a new price of P2).

The diagram must be **dynamic** (e.g. something has shifted, increased, decreased), use arrows for emphasis.

DO NOT ABBREVIATE ANY TERMS IN YOUR WRITTEN WORK UNTIL YOU HAVE WRITTEN THEM OUT IN FULL AT LEAST ONCE! Assume no prior knowledge of the person reading (i.e. that means they don't know what AS, PeD or GDP stand for).

15 MARK QUESTION (Part b)

Step 1: Carry out all the above steps as you would for a 10 mark question.

Do not repeat diagrams. If the diagram you need is in part (a) then refer to the diagram and the points on it in part (a).

Reconstructions in Middle East Economic History Don Babai, 2024-10-24 This volume explores major theoretical and empirical themes in the study of the economic history of the Middle East. Despite the relative neglect of economic history in Middle Eastern studies, this book makes a case for its importance as a discipline of study. On the one hand, it shows promise in illuminating the economic base of historical trends and events; on the other, it can elucidate the historical foundations of economic continuity and change. The chapters employ an array of theoretical and methodological approaches and ultimately demonstrate how economics and history, along with political economy, complement each other in studying the Middle East. Among the substantive topics explored are the trajectories of the Arab Spring, institutional change and economic development in the early Ottoman Empire, the destructive effects of the reordering of property rights in Iraq by the American-led occupation authority, the evolution of the political economy of the Islamic Republic of Iran, and the determinants of movements in the yields of Egyptian and Ottoman sovereign debt following political and economic crises in the 19th and early 20th centuries. The book will be of interest to scholars and students of economic history, political economy, and the Middle East.
