 over England is a great Knowability After five years service a man is directly or indirectly acquainted with the two or three
 hundred Civilians in his Province all the Messes of ten or twelve Regiments and Batteries and some fifteen hundred other

Among Our Books Carnegie Library of Pittsburgh,1911 *Monthly Bulletin of the Carnegie Library of Pittsburgh* Carnegie Library of Pittsburgh,1911 **Monthly Bulletin of the Public Library of the District of Columbia** ,1907 **Twice-Told Children's Tales** Betty Greenway,2013-09-13 It is only in childhood that books have any deep influence on our lives Graham Greene The luminous books of our childhood will remain the luminous books of our lives Joyce Carol Oates Writers as they often attest are deeply influenced by their childhood reading Salman Rushdie for example has said that The Wizard of Oz made a writer of me Twice Told Tales is a collection of essays on the way the works of adult writers have been influenced by their childhood reading This fascinating volume includes theoretical essays on Salman Rushdie and the Oz books Beauty and the Beast retold as Jane Eyre the childhood reading of Jorge Luis Borges and the remnants of nursery rhymes in Sylvia Plath s poetry It is supplemented with a number of brief commentaries on children s books by major creative writers including Maxine Hong Kingston and Maxine Kumin *A Guide to Literature for Character Training ...* University of Iowa. Institute of Character Research,1928 **Monthly Bulletin** San Francisco Free Public Library,1905 **Modernity, Metatheory, and the Temporal-Spatial Divide** Michael Kimaid,2015-03-27 This book is about how modernity affects our perceptions of time

and space Its main argument is that geographical space is used to control temporal progress by channeling it to benefit particular political economic and social interests or by halting it altogether By incorporating the ancient Greek myth of the Titanomachy as a conceptual metaphor to explore the elemental ideas of time and space the author argues that hegemonic interests have developed spatial hierarchy into a comprehensive system of technocratic monoculture which interrupts temporal development in order to maintain exclusive power and authority This spatial stasis is reinforced through the control of historical narratives and geographical settings While increasingly comprehensive the author argues that this state of affairs can best be challenged by focusing on the development of unmappable places which presently exist within the socio spatial matrix of the modern world
